

How to Create IFTTT Applets (Recipes) with EZVIZ cameras

STEP 1

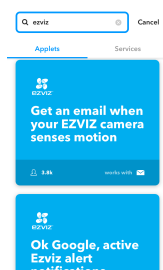

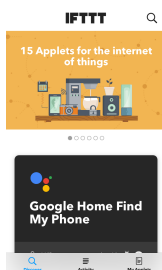

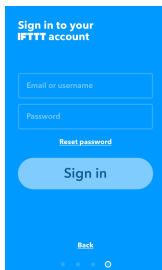

Download the IFTTT to your mobile device.

IFTTT

STEP 2

Open IFTTT. Log in your account and search EZVIZ

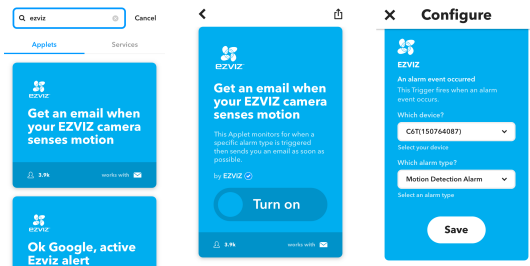

STEP 3

Select one of the pre-made applets or create a new applet

1 Select a pre-made applets

Select a pre-made applet, press Turn on and choose the device and alarm type

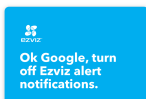

2 Create a new applet

Tap the New Applet

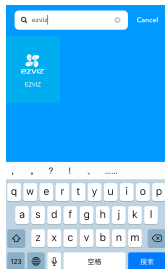

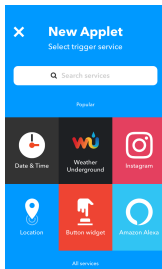

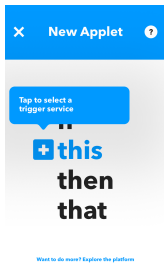

Try making your own Applet from scratch

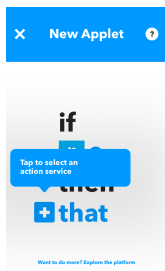

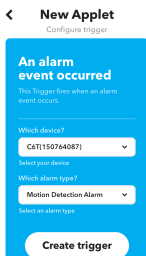

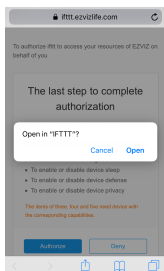

New Applet

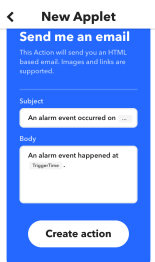

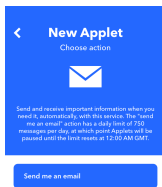

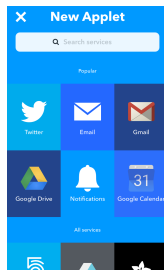

Select a trigger service and search EZVIZ as a new trigger service

Open IFTTT and configure a trigger. After that, you need to choose the device and alarm type, then press Create Trigger. Press “that” when you finished last step

Select an action service. For example, choose Email and enter your email address, then press Create Action. If your IFTTT account is registered by your email, there is no need to enter your email address

Finished and check if it succeeds
