

EZVIZ RE4C Plus

Robot Vacuum & Mop Combo

***Maintain a cleaner home
with cleaner hands***

Meet the EZVIZ RE4C Plus, a smart robot that combines automatic whole-home cleaning with automatic dust emptying in one kit. With a robust 4,000 Pa suction power, it can clean a large home on a single full charge. Utilizing advanced LDS LiDAR navigation and infrared detection, it navigates precisely and avoids bumps and collisions. It automatically returns back to the base station to self-empty the collected dirt and debris, so you don't have to get your hands near filthy messes during and after every cleaning task. Relax and chill, while your RE4C Plus cleans your rooms and empties itself without you having to lend a hand.

Key Features

Automatic
Dustbin Emptying
from the Robot

Up to 60 Days
Without Emptying the
Base Station's Dust Bag¹

LDS LiDAR Navigation
& Route Planning

Obstacle Detection
& Avoidance

Drop-Sensing
Technology

Carpet
Detection

Suction Power
Up to 4,000 Pa

Self-Returning & Charging
at the Base Station

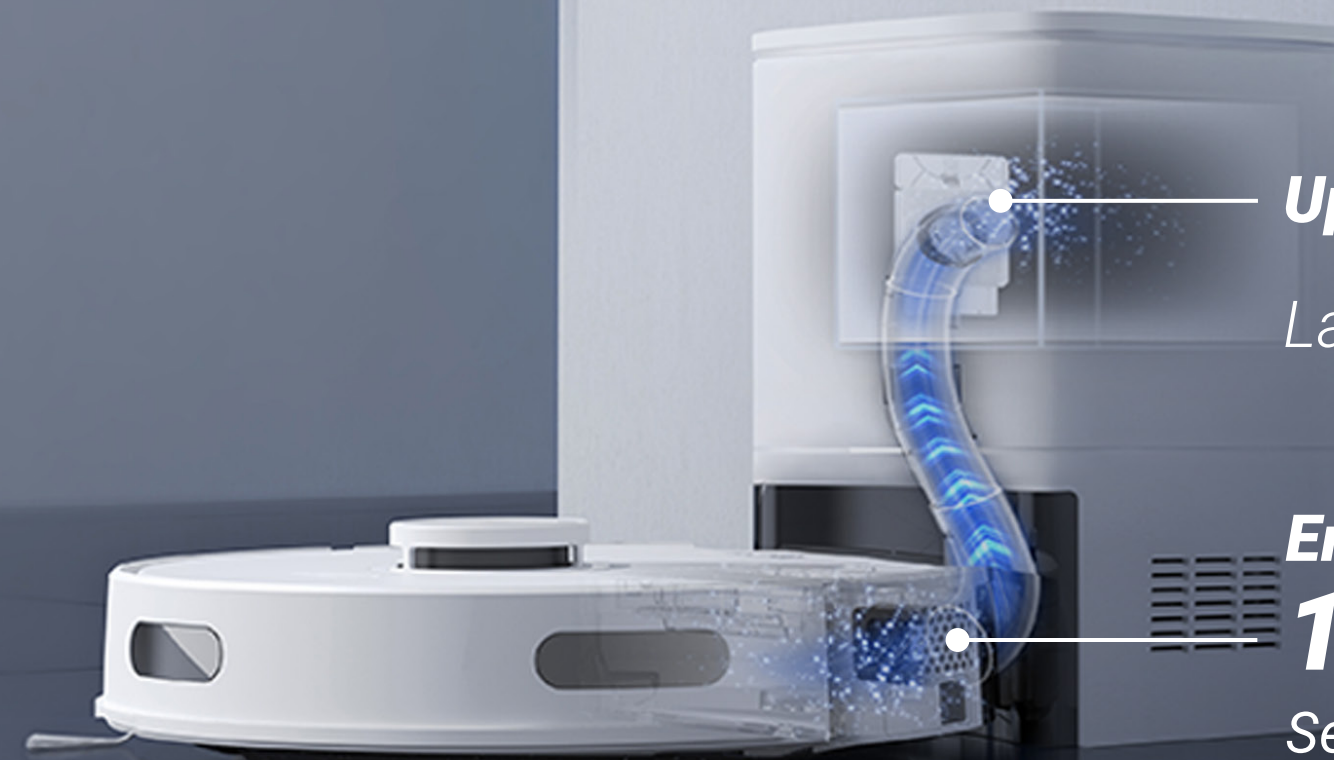

Remote App Control
& Map Customization

Smart Integration
with Google Assistant
& Amazon Alexa²

Dirt out of sight, hands kept clean

Unlike your ordinary robot that requires you to manually remove the collected wastes, the RE4C Plus empties itself automatically. It transitions dust from its dustbin to the large dust bag on the base station, which only gets full every 2 months.¹

Up to 60 Days Without Emptying

Large **2.5L** Dust Bag

Empties Itself After Every Cleaning

16,000Pa

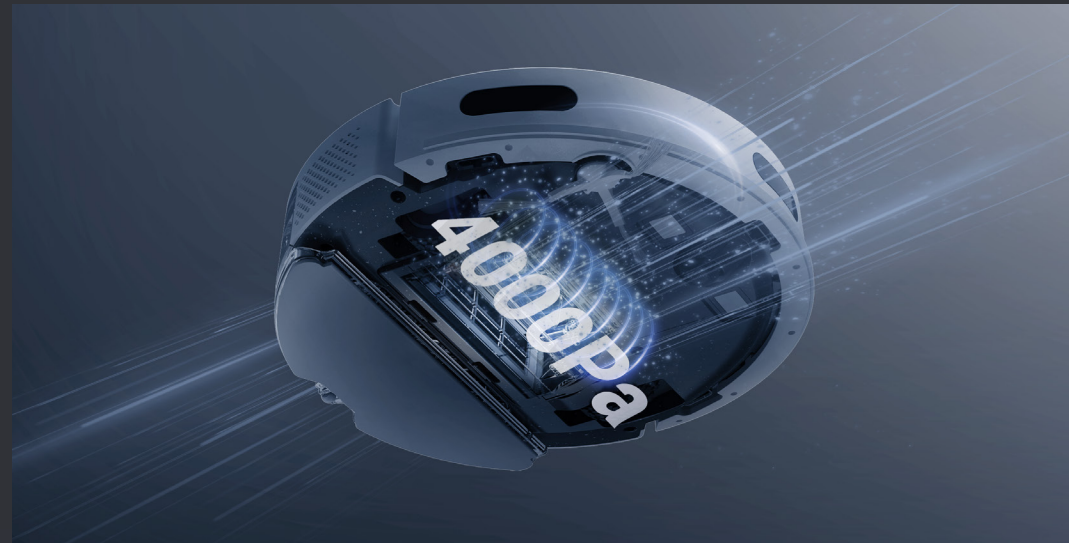

Self-Emptying Suction

Dry or wet, all cleaned effortlessly

You can rely on the RE4C Plus to take care of different floor types for a mixed type of dirt. It efficiently sucks in debris, pet hair and dust, and mop away spills and other sticky messes. With the RE4C Plus, every nook and cranny can stay clean and fresh.

One robot for multiple cleaning tasks

4,000 Pa suction power to vacuum in depth

Built to present spotless floors to homeowners, the RE4C Plus effectively removes dust, pet dander, and hard-to-collect debris in a flash.

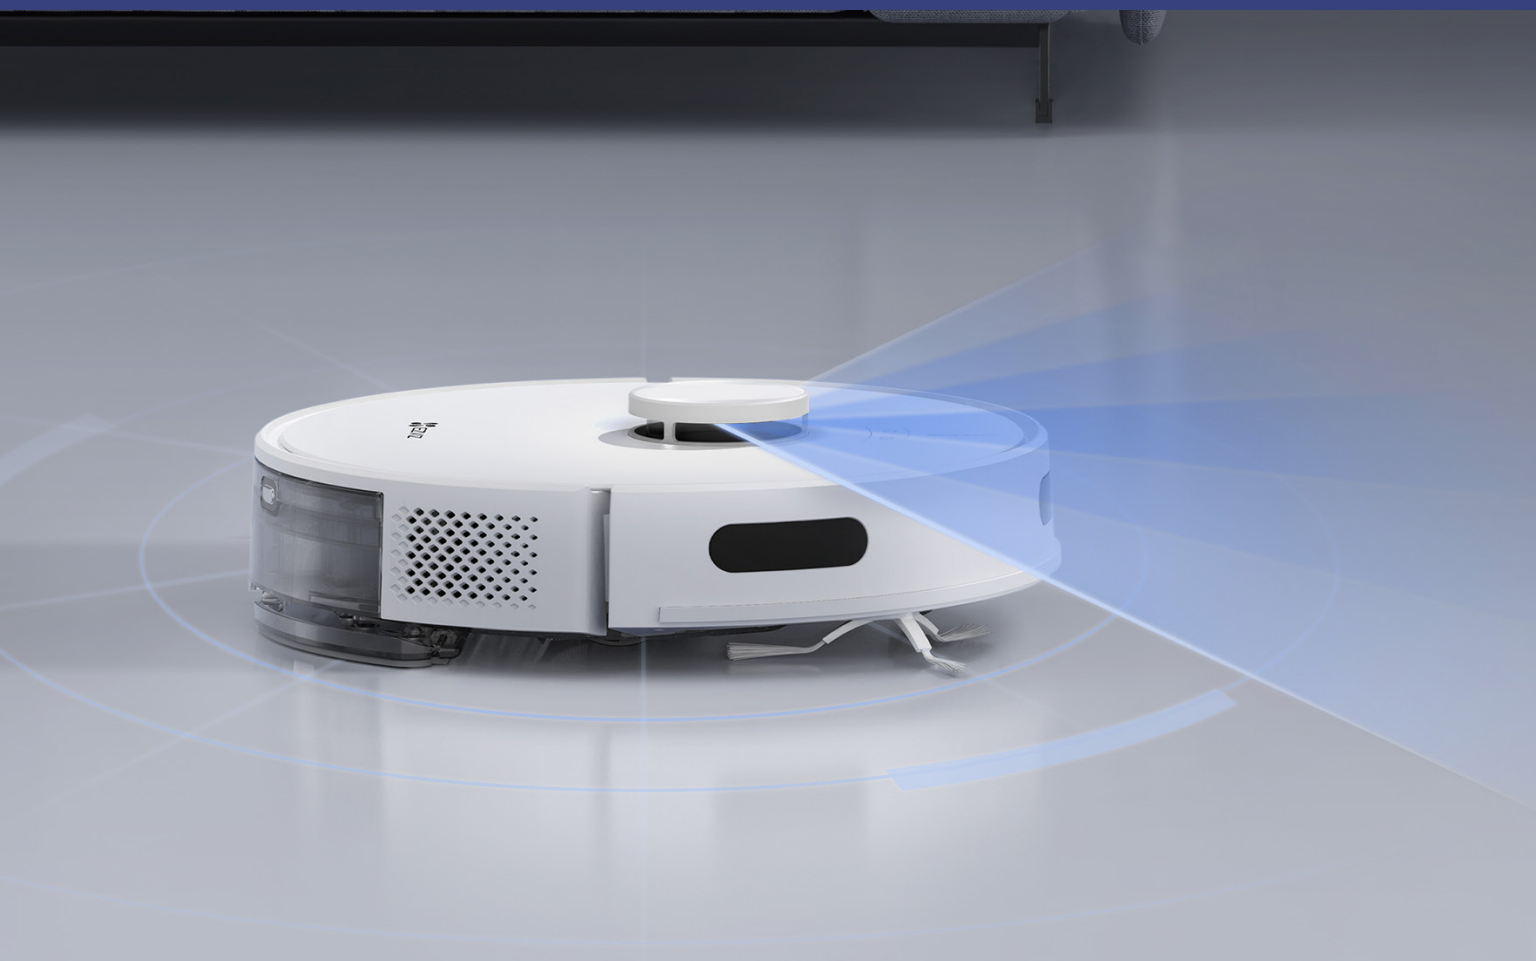

Automatic suction boost to clean carpets

The RE4C Plus smartly knows whether it's on a hard floor or a carpet. When cleaning a carpet, it automatically increases its suction power to better drag out tangled hair and hidden dirt.

Consistent mop pressure to restore the sparkle

With its 280 ml clean water tank and smart mopping system, the RE4C Plus wets your floor with the right amount of water and pressure, so as to wipe away stains and stinks.

Navigate your home in a smart way

Featuring LDS LiDAR and infrared detectors, the RE4C Plus strategically avoids obstacles and plans the most effective cleaning route in even complex environments.

Customize home cleaning with ease

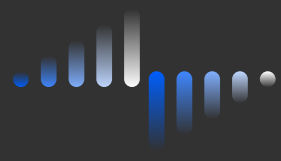

In addition to quickly mapping out your home, the RE4C Plus also smartly adapts to everyday changes, delivering tailored cleaning experience for every home. Using EZVIZ App, you can customize floor plans easily for different areas and rooms, or set up cleaning missions for the whole home.

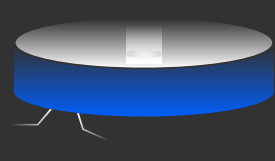

A user-friendly design at its heart

Extended runtime
covers up to **220 m²**
with one full charge³

Low noise level
during operation⁴

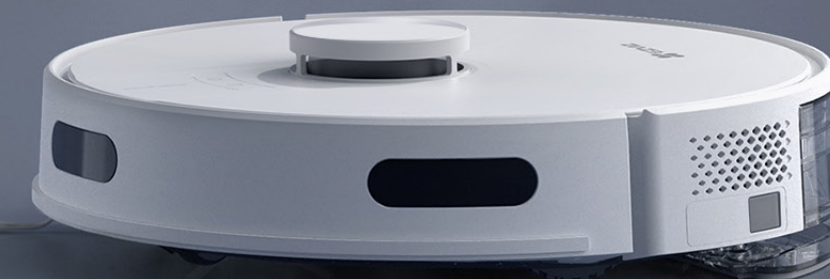

TPE plastic
minimizes bumping
damage

Hands-free control
via third-party
voice assistants

Alexa, turn on the RE4C Plus.

Create cleaner homes on a greener earth

01 Reuse recycled materials

With sustainability in mind, EZVIZ uses recycled materials – an amount that equals about 16 plastic water bottles – on the RE4C Plus's back plate, helping reduce plastic pollution and give used materials a second life.

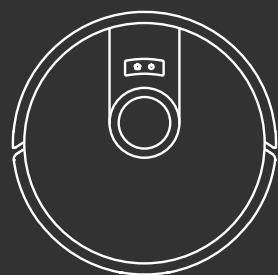

02 Grow greenness with the RE4C Plus

With revenues from the RE4C Plus, EZVIZ is giving back to the planet - planting trees and empowering local farms via our dedicated EZVIZ Global Forest Plan. On average, we plant two trees a day with our green partner Treedom, a global leading tree-planting platform.

*A side brush, a dust bag, and a filter are already pre-assembled in the RE4C Plus.

1 Data from EZVIZ Lab test results based on the regular use of the robot. Actual emptying interval may vary depending on the use habits and environmental factors.

2 Amazon Alexa and Google Assistant are not available in certain languages and countries.

3 Data from EZVIZ Lab test results under standard conditions. Actual battery life may vary due to the robot’s battery status, dirt level and other environmental factors.

4 Data from EZVIZ Lab test results under standard conditions, when the Standard Mode is enabled. Actual noise level may vary due to the robot’s working modes and environmental factors.

Specifications

CS-RE4C Plus

Navigation

Navigation & Mapping	LDS LiDAR
Obstacle Avoidance	Infrared Detectors

Cleaning Features

Cleaning Mode	Full-house Cleaning, Room Cleaning, Area Cleaning
Suitable Area	Up to 220 m²
Edge Detection	Supports

Vacuuming

Maximum Suction Power (Pa)	4,000
Suction Level Adjustment	4 levels
Motor	Brushless Motor
Carpet Detection	Supports
Main Brush Pressure Boost	Supports

Mopping

Water Level Adjustment	3 levels
Water Tank Capacity (L)	0.28
Water Refill	Manual
Mop	Washable

Runtime

Battery Capacity (mAh)	Li-ion 2,600	
Charging Time (h)	5	
Working Time (min)	Silent Mode 173	Standard Mode 120

Robot

Robot Rated Power (W)	45
Robot Working Voltage (V)	14.4
Dust Box Capacity (L)	0.30
Barrier Crossing Ability (mm)	20
Dust Box Detection	Supports
Noise Level	≤65 dB (A) on Standard Mode (sweep)
APP / Remote Control	EZVIZ App Control
Wi-Fi Frequency Band	2.4 GHz
Voice Control	Google Assistant & Amazon Alexa

Robot Accessories

Dust Box Filter	Filter Net + High-Efficiency Filter
Filter Level	E10
Main Brush Type	Floating Main Brush
Main Brush Material	Rubber + Bristle
