

EZVIZ Y3000FVP Plus

Face Recognition & Palm Vein Smart Lock

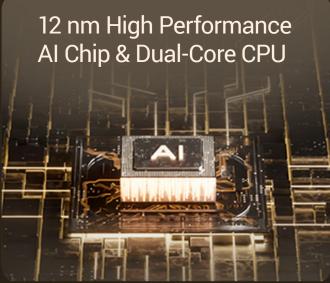

Unlock the AI power of your front door

Powered by EZVIZ
Next-Level AI

Remote Unlocking & Status Checking via the EZVIZ App

Built-in Door Viewer with 4-Inch Indoor Smart Screen

Live View with Two-Way Video Call

Wandering Detection with Real-Time Alerts

Runs on Industry-Leading Video Tech

Protects for Utmost Peace of Mind

Sturdy Lock Body with Anti-Tamper Alarm

Large-Capacity Rechargeable Lithium Battery

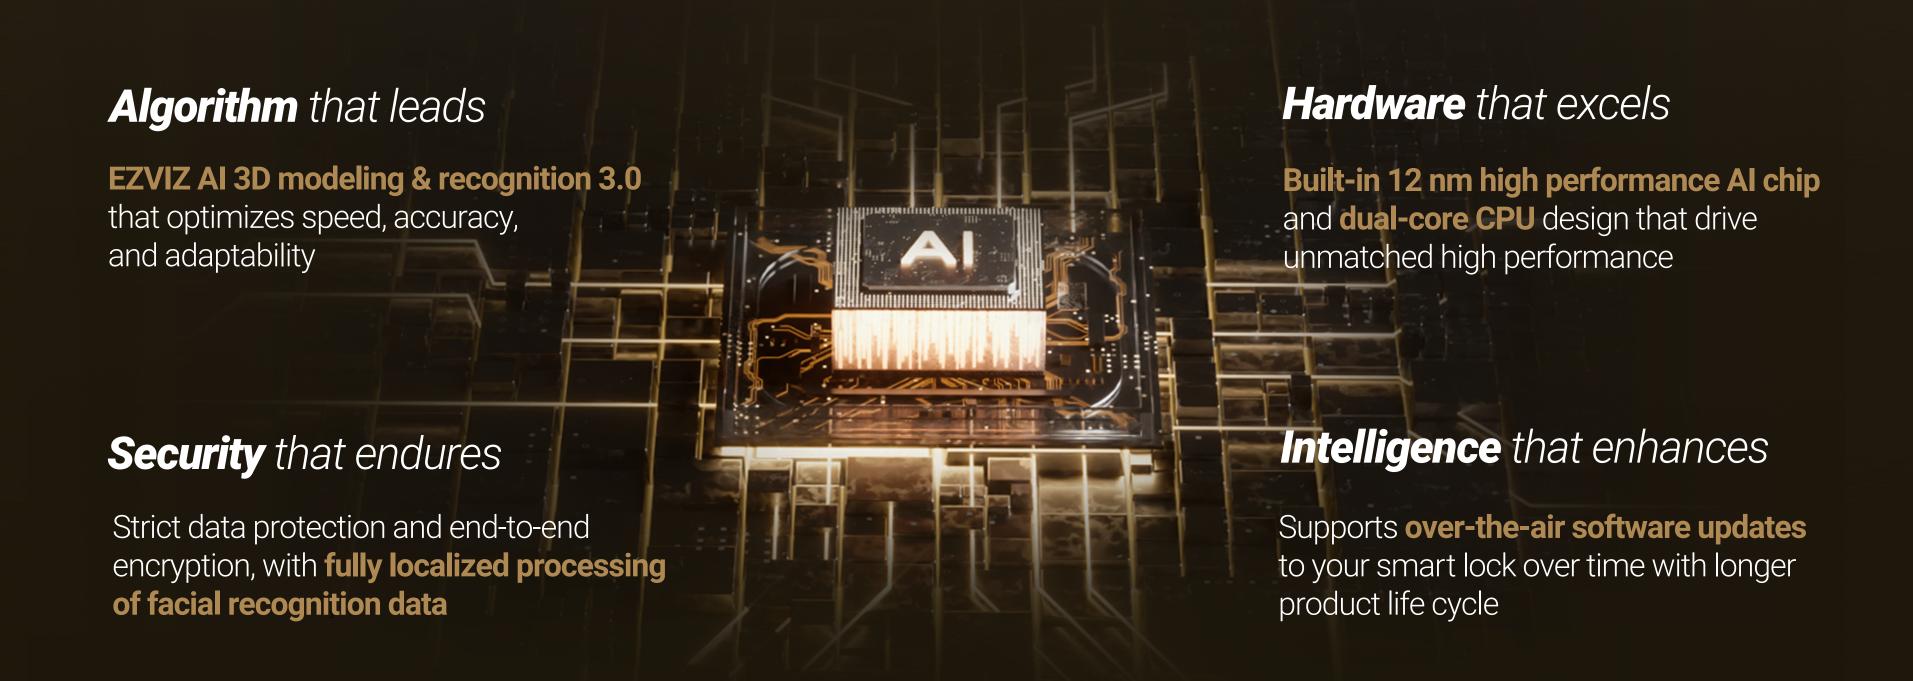

Low-Battery Warning

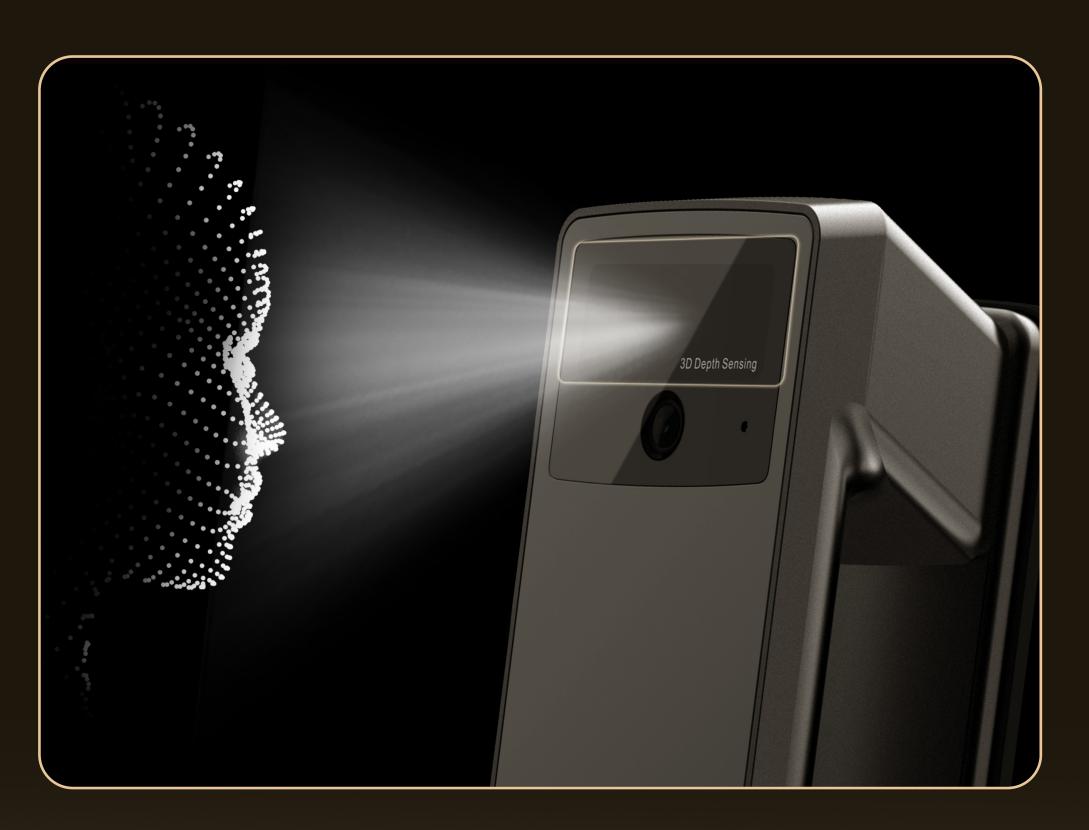

Next-generation AI built for smart locks

Only very few companies in the lock market develops and owns AI technologies, and fewer can bridge them with useful, user-friendly products through extensive real-life testing. EZVIZ is one of them.

State-of-the-art AI for convenience & security

≤1 second unlocking time³

for instant response & ultra-smooth experience

≤0.0001% false acceptance rate⁴

to ensure extremely high level of security while being fast in recognition

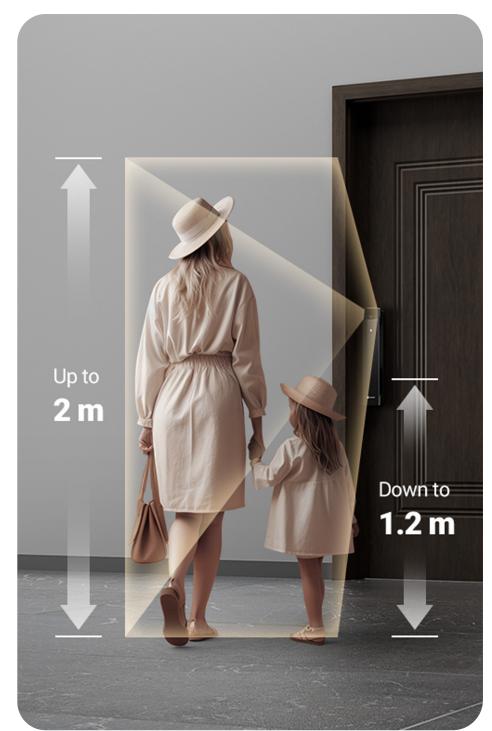

≤0.1% false rejection rate⁵

to greatly reduce frustration caused by repetitive verification

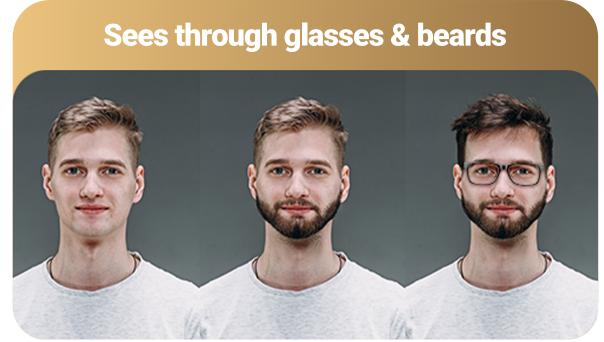

Much better than your ordinary facial recognition lock

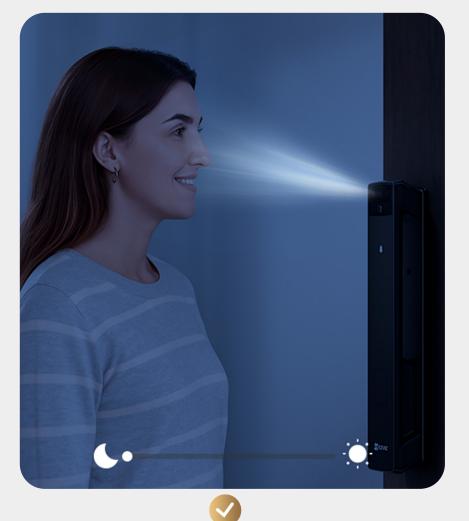

Just approach as you arrive – it's that easy to unlock

Better AI means less hassle and less waiting. Now, you don't have to move your head, adjust the angle of your face or put on a typical smile before the lock recognizes you.

Strong backlight

Ready for every moment, despite lighting conditions

With EZVIZ's advanced video technology, the Y3000FVP Plus doesn't compromise its performance, even if you arrive home late.

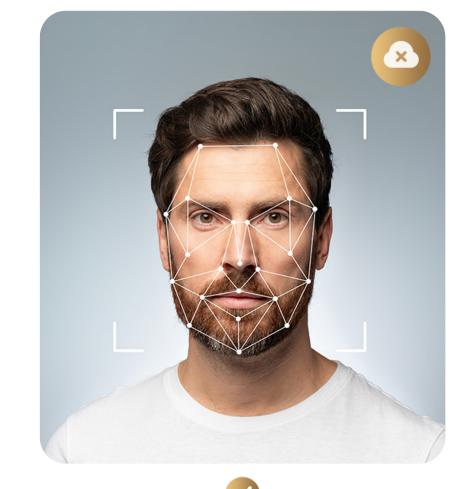

Tirelessly protects, with security at its core

Dim hallway

Security is the cornerstone of a good lock. We build the Y3000FVP Plus with multiple technologies to ensure that both your home and your data are well protected.

Can't be fooled by photos, videos, 3D masks or statues

Localized 3D data processing without real-life user photos stored or transmitted

Palm vein unlocking that adapts more

With the Y3000FVP Plus, everyone can unlock with confidence with plenty of options. In addition to 3D faces, users create unique, safe access with their hands, without pressing hard on a fingerprint sensor.

Less constraints from face coverings

Less restriction on users' height

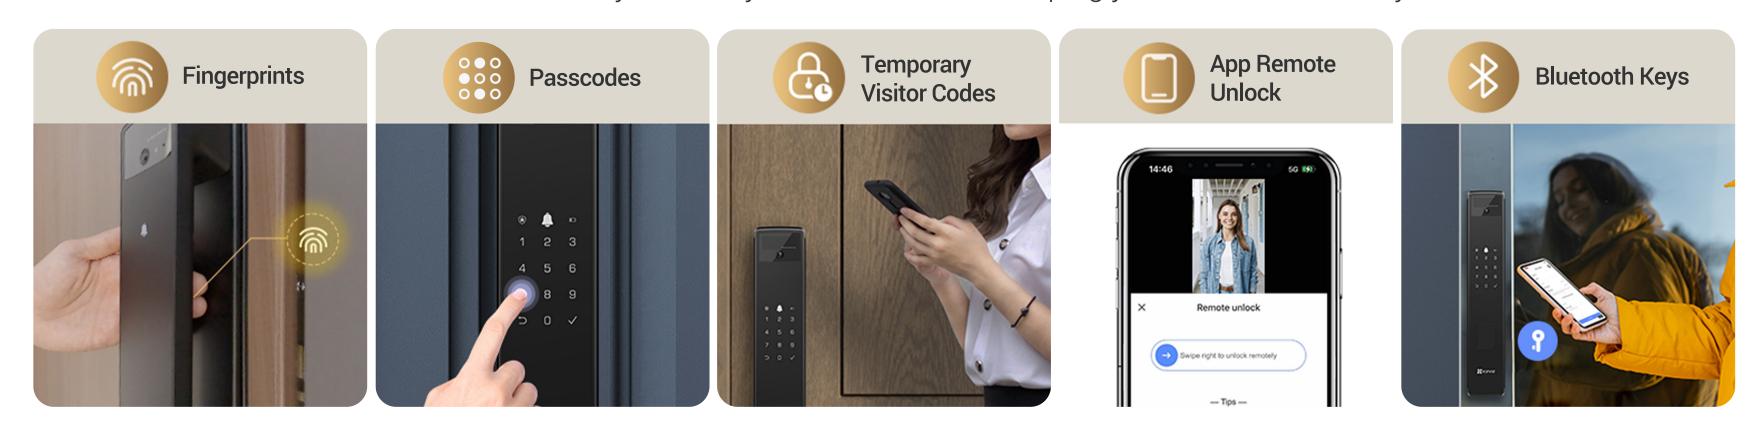

Less worries on worn fingerprints

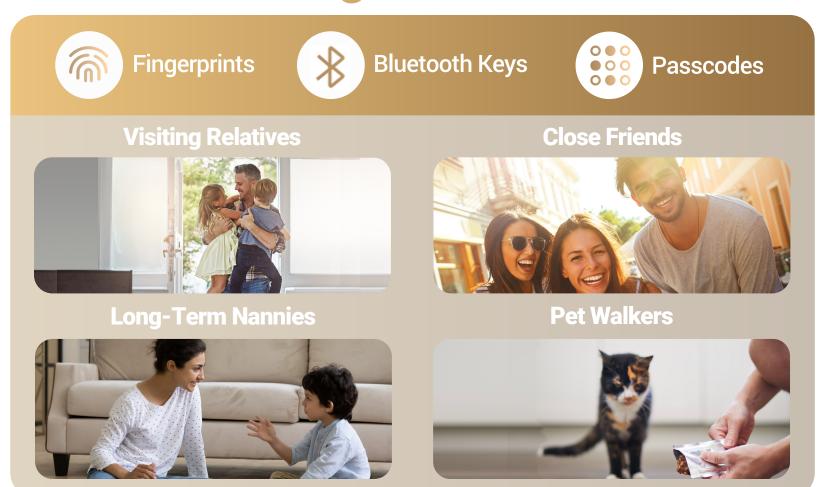

More ways to enter for tailored convenience

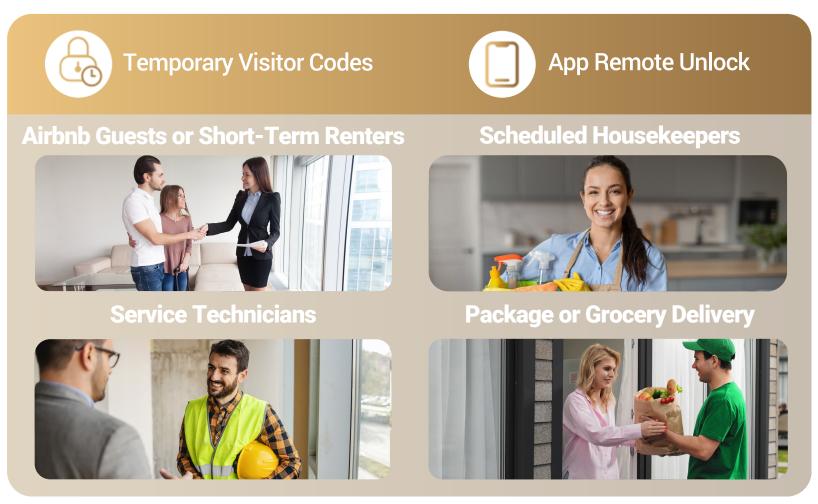

Your household can be busy with comes and goes, and you may not always be there to welcome the ones you trust. Choose what's convenient for your family and visitors, while keeping your front door under your watch.

For regular visitors

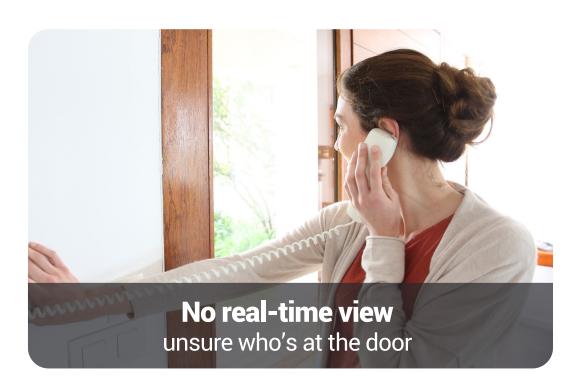

For services & deliveries

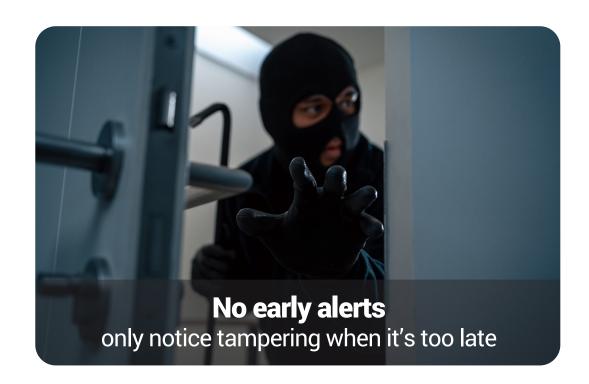

Why you want your lock to be more than a lock

Users expect more from a smart lock because they struggle with some difficult times, which requires flexibility, security, and convenience beyond just opening a door.

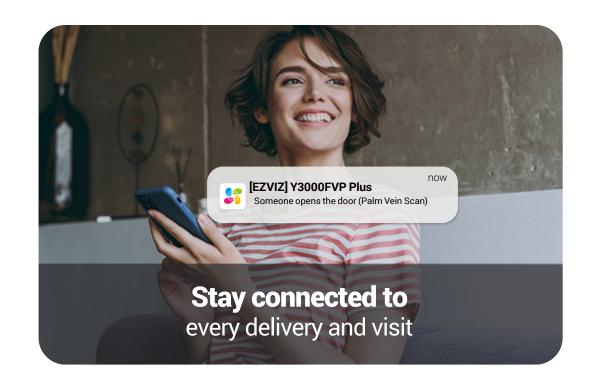

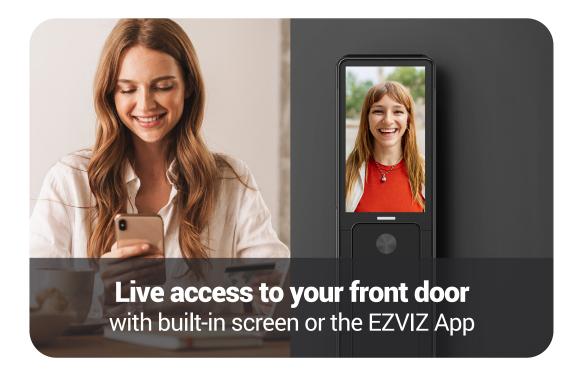

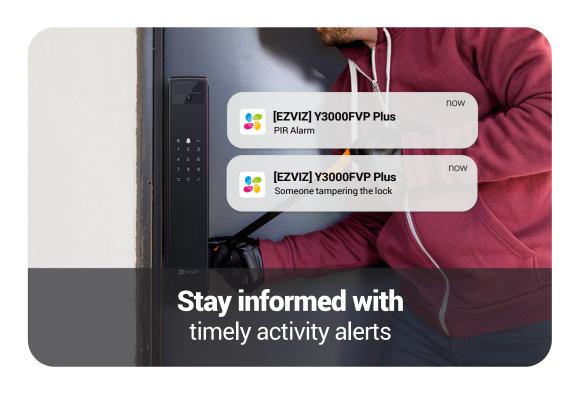

One multi-purpose product offers total peace of mind

Here's what Y3000FVP Plus offers

Much better than your old peephole

See more with a wide-angle view

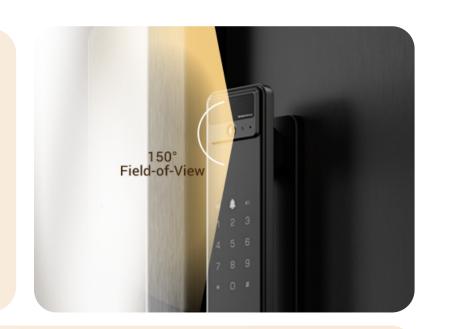

The smart lock features a built-in camera that delivers a clear, wide-angle view of your doorstep.

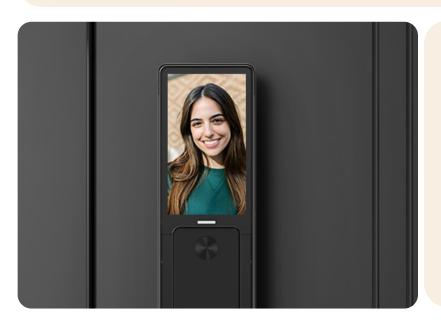

Ultra-Wide 150° Field-of-View

Two-Way Talk with Voice Changer

Check visitors with the indoor screen

The indoor screen helps everyone, from kids to grandparents, see who's at the door before unlocking, with no smartphone needed.

Crisp Video Clarity

4-Inch Color Screen

Active and smart as a security guard

Thanks to EZVIZ's smart visual technology, your lock knows when someone's near, or hanging around. It detects human movement by your door and sends instant alerts, keeping you in the know, day and night.

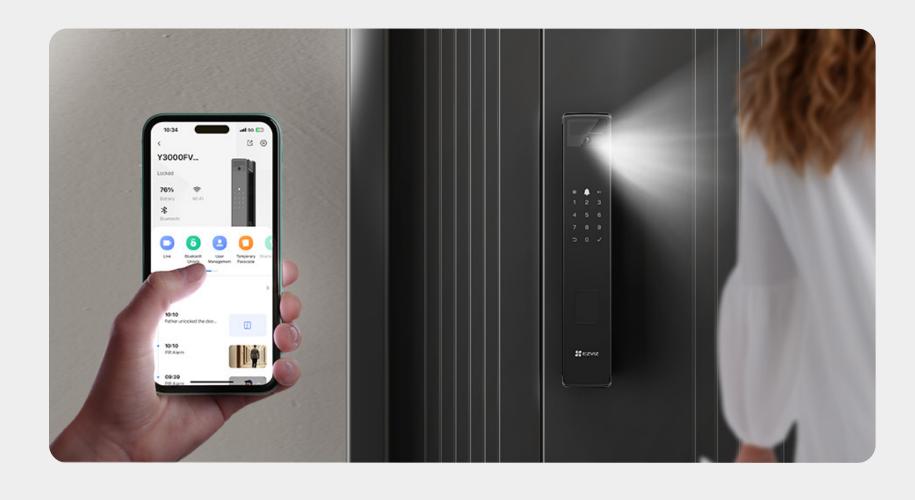

5.8 G Radar Human Presence Sensor⁶

IR Night
Vision
(up to 2 m)

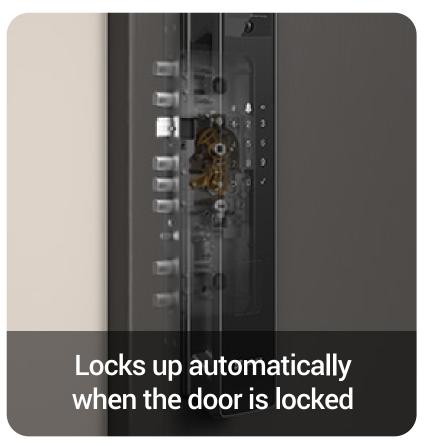

Detection Video Replay (Built-in 8 GB memory)

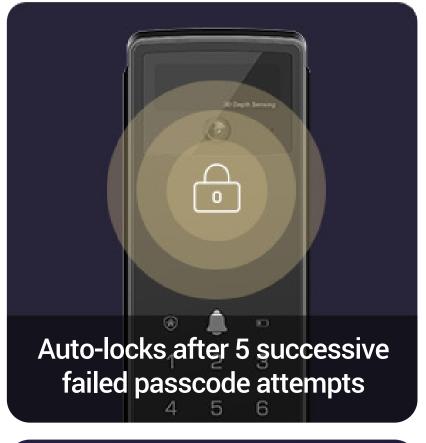

Security you can trust in every part

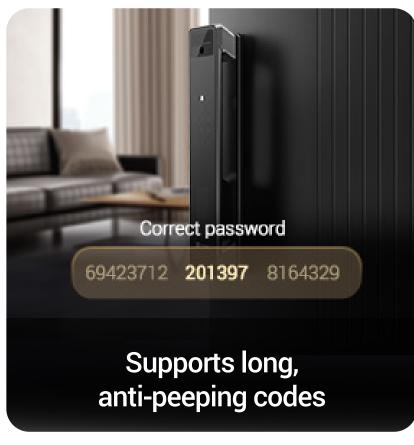

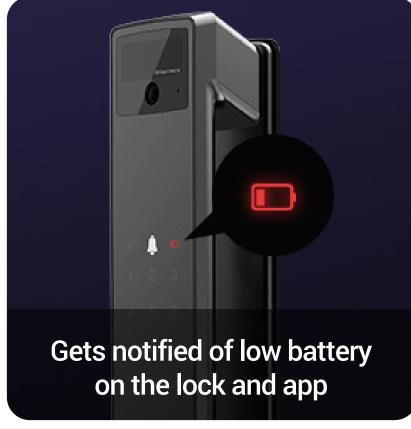

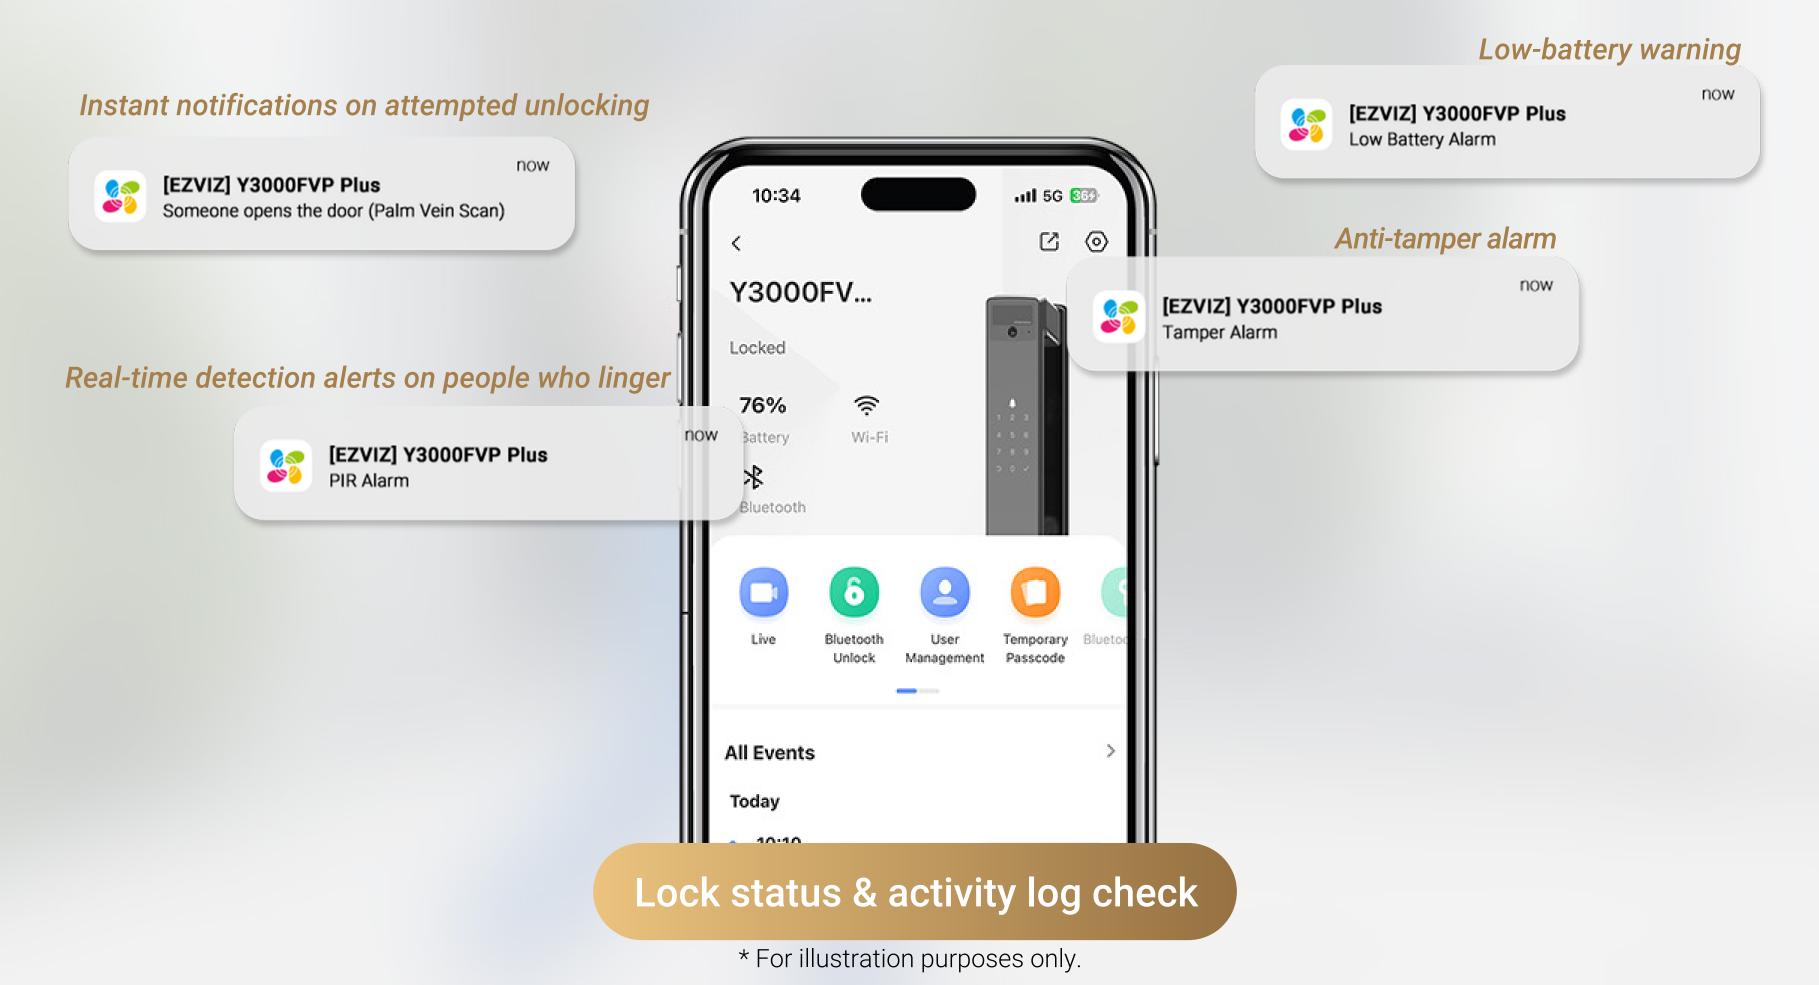

Extra peace of mind, all at your fingertips

Stand strong and protect always

Designed to endure real-world conditions, the smart lock passes rigorous testing for weather resistance, long-term use, and electrical safety, delivering reliable protection you can count on.

96 Hours

Neutral Salt Spray Test

15 KV

Air Electrostatic Discharge Test

100,000 Times

Full Device Life Cycle Test

-20°C ~ 60°C

High and Low Temperature Test

Designed with style to fit every door

The Y3000FVP Plus brings a touch of elegance and quality to your home, featuring a handle that feels smooth and comfortable, and complements any style of décor.

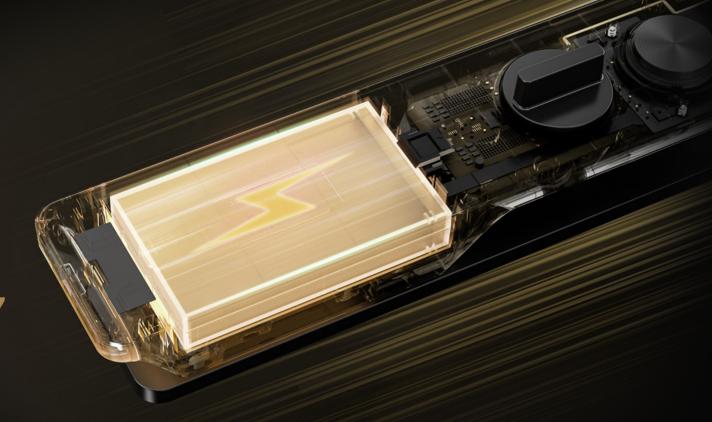

Power that lasts, anytime you need

The Y3000FVP Plus features a 5,000 mAh rechargeable battery that keeps your home secure for a long time. If it ever runs low, simply plug in a power bank to unlock and recharge quickly.

4-Month
Battery Life⁷

We're committed to protecting with trust

We put security as the primary goal of every product and system that we build, and assiduously improve our practices to better protect your device, data and privacy.

- 1 Please note that the palm vein scanning area does not include fingers. When using the palm vein unlocking function, please place only the palm part on the scanner. The optimal palm vein scanning distance ranges from 15 cm to 25 cm for adults, with a recommended distance of 10 cm for children. These distances may vary depending on environmental conditions, such as strong sunlight.
- The biometric recognition technology in Y3000FVP Plus operates ENTIRELY LOCALLY on the product that you control and manage yourself, and only serves the sole purpose of supporting your decision of unlocking. During the whole course, the saved data always only contains technical value, i.e. the biometric data obtained from the templates you proactively provided in advance (such as facial images, palm vein templates), which cannot be used to reconstruct your original data.
- 3 Data from EZVIZ Lab's testing results based on standard conditions. The actual recognition speed may vary due to environmental factors.
- 4 Data from EZVIZ Lab's testing results based on standard conditions. The actual false acceptance rate may vary due to various objective factors, such as heavy makeup or strong sunlight exposure.
- 5 Data from EZVIZ Lab's testing results based on standard conditions. The actual false rejection rate may vary due to various objective factors, such as heavy makeup or strong sunlight exposure.
- 6 The human presence sensing feature uses the built-in radar sensor and does not involve the detection of human faces. You can choose to activate or deactivate this function on the EZVIZ App.
- When being connected via Bluetooth with the Wi-Fi mode disabled, the lock can run up to 4 months with fully charged batteries based on the usage of 10 openings per day. When the lock is connected via Wi-Fi, its battery life may reduce due to internet activities, and the actual use may vary due to the network stability or other environmental factors.

Specifications CS-Y3000FVP Plus

Material and Specification

Panel Material Aluminum alloy

Panel Size Front panel: $400 \times 73.7 \times 53.44$ mm

Rear panel: 400 × 72 × 30.5 mm

Color Metallic grey

Lock Body Type Automatic mechanical detection lock body 5085 / 6068

Lock Cylinder C-level cylinder

Emergency Charging Type-C

Working Power 5,000 mAh rechargeable lithium batteries

Technical Specification

Unlocking Method Face ID, Fingerprint, Passcode, Mechanical key,

Bluetooth key via EZVIZ App, Temporary codes,

Remote unlocking

User Capacity 50 pcs

Face ID Capacity 50 pcs

Palm Vein Capacity 50 pcs

Fingerprint Capacity 50 sets

Passcode Capacity 50 pcs

Communication Methods 2.4 GHz Wi-Fi, Bluetooth

Screen (non-touch) IPS 4-inch (480 × 800)

IP Grade IP52

Front Panel Camera

1080p (1080 × 1960)

Resolution

Front Panel Camera Lens View angle: 70° (Horizontal), 126° (Vertical),

150°(Diagonal)

IR Night Vision Distance 2 m

Storage EMMC 8G; Supports EZVIZ CloudPlay storage

Face Recognition Standing distance < 1 m, height greater than 1.2 m

and less than 2 m

Recognition speed ≤ 1 s, supports day / night

recognition

Supports recognition across varying hairstyle and

with glasses
* EZVIZ laboratory data

Palm Vein Recognition Recognition distance between the palm vein and

sensor: 15 ~ 25 cm * EZVIZ laboratory data

Software Function Anti-peeping code, Low battery warning, Privacy mode,

User management, Real time notification, Anti-test locking, Anti-tamper alarm, Remote control, Video

calling, Voice changer, Wandering detection

Voice Control Supports Google Assistant and Amazon Alexa

(Supports OTA updates)

Supported Door Thickness 6068: 40 ~ 120 mm; 5085: 40 ~ 100 mm

Working Temperature -20°C ~ 60°C

Operating Humidity 10% ~ 95%
