EZVIZ DL06
Smart Fingerprint Lock

**Unlock your door
right at your hand**

The DL06 fits naturally into your daily routine — unlock instantly with a simple touch or choose from other easy options. Its sleek handle houses an intuitive fingerprint sensor, and with the EZVIZ App, you can easily manage who comes and goes. Now, your front door security has never been smarter or safer.

Key Features

Fingerprint
Unlocking

Passcode & Proximity
Card Unlocking

Remote Unlocking via
the EZVIZ App

Weatherproof Design¹

Slim Design

Supports Temporary
Code Unlocking

Smart Integration
with EZVIZ Cameras²

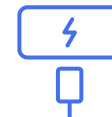

Built-In Doorbell

Anti-Tamper Alarm

Low-Battery
Warning Signal

Rechargeable Battery
(Supports Type-C charging)

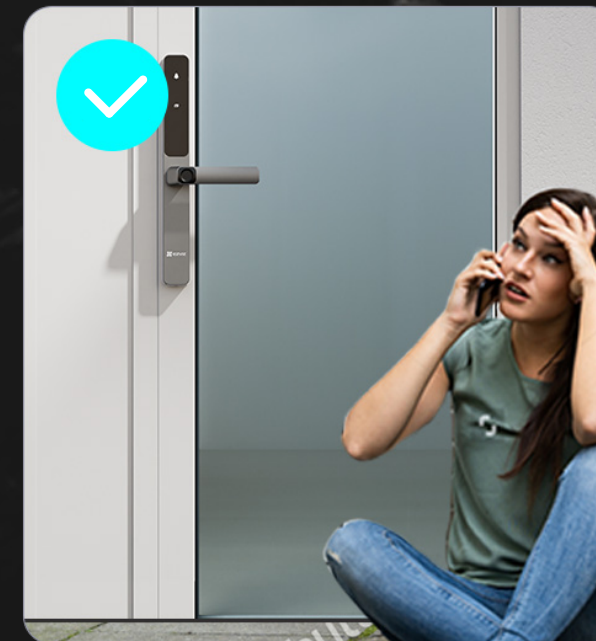

Child Safety Lock

Quick and easy access with a touch of your hand

Say goodbye to lost keys and forgotten codes, the DL06's fingerprint unlocking helps every family member unlock the door right at the fingertips.

Gain access instantly
with fast recognition

Never worry about
lost or forgotten credentials

Store up to 50 sets of fingerprints,
sufficient for the whole family

Your secure access always grasped in the right hand

Unlike passwords or keys, which can be easily stolen or copied, the DL06 offers a high level of security to ensure that every time you press the scanner with confidence, knowing that your fingerprints are strongly protected.

Strict data protection with local
fingerprint processing & storage

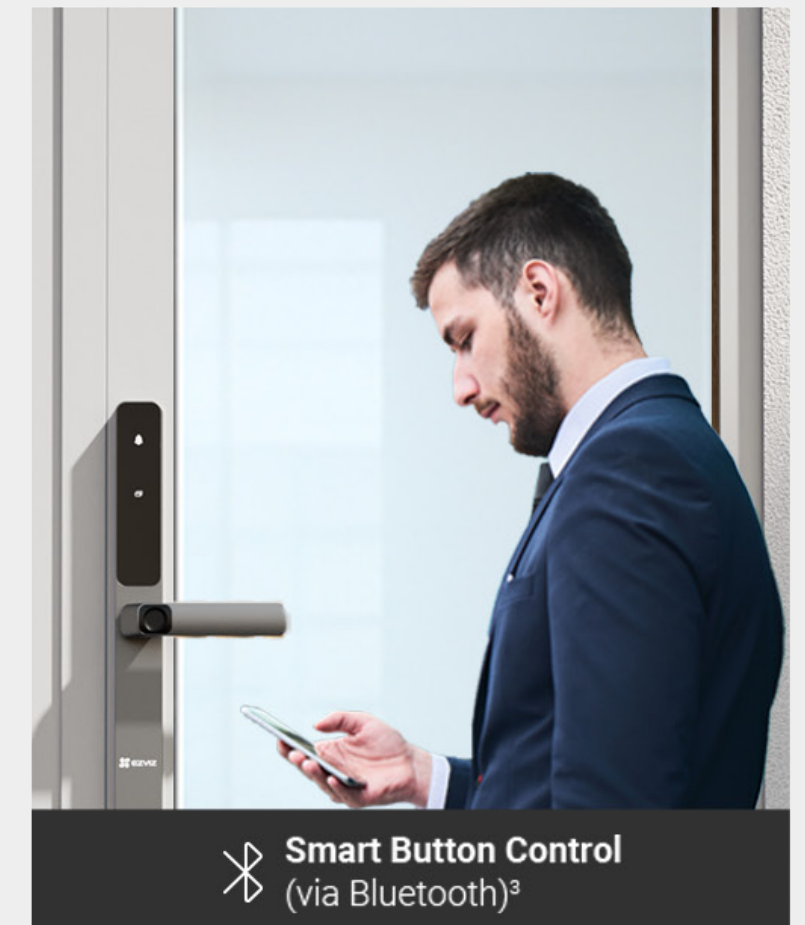

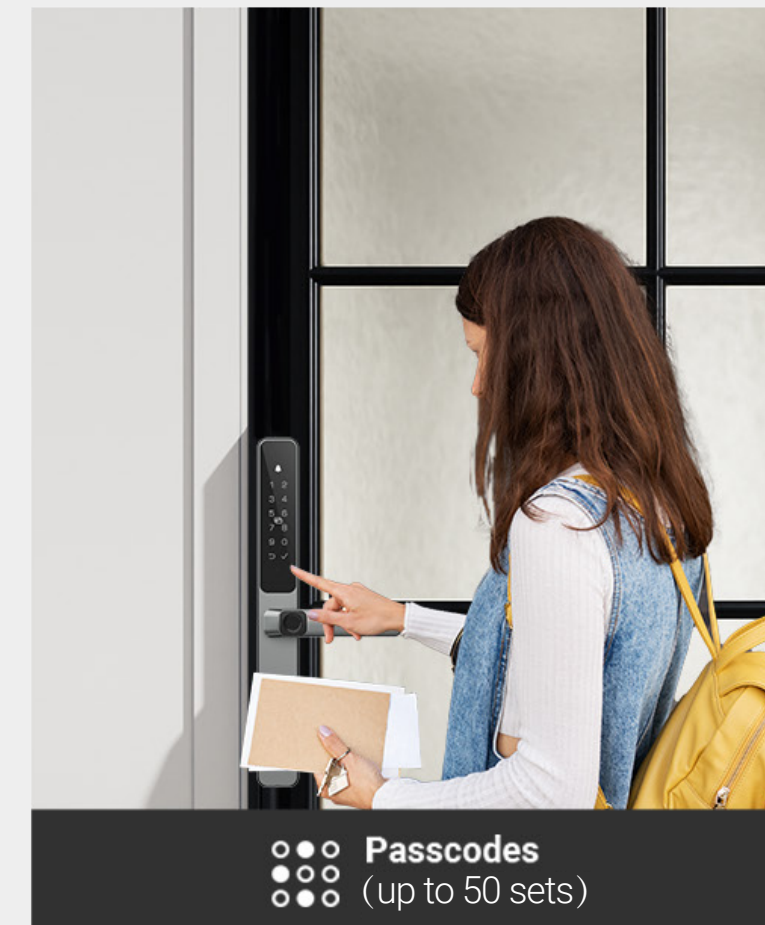

High-level security to enter the
temporary lockout time after 5 successive
failed attempts in 5 minutes

Unique credential to each user with
anti-spoofing measures

More ways to unlock, flexible for everyone

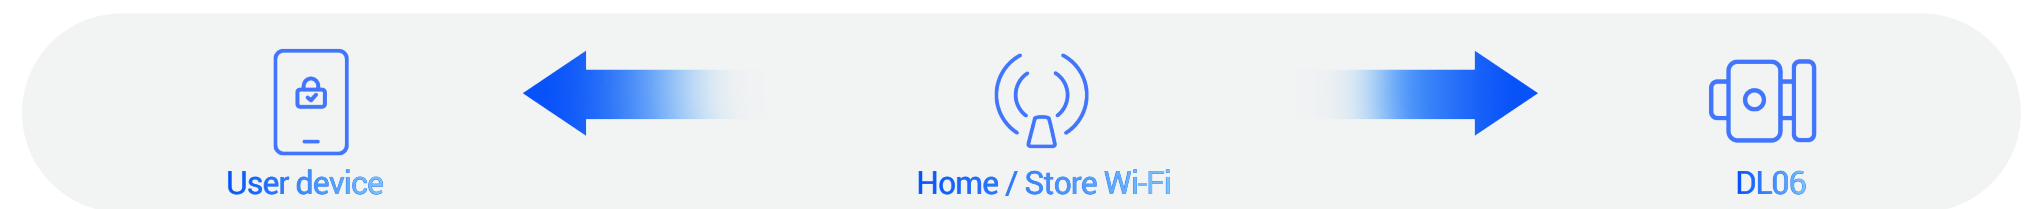

Even for people who see their fingerprints worn off and those who don't have a smartphone, the DL06 serves them well, too. You can even create a simple door switch by adding a compatible smart button to control the opening on the site.

Directly Connects to Wi-Fi

Unlock and control access, even remotely

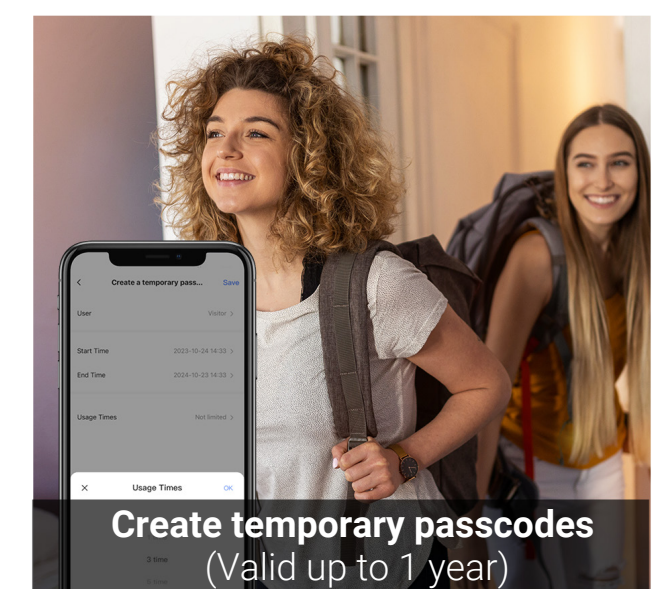

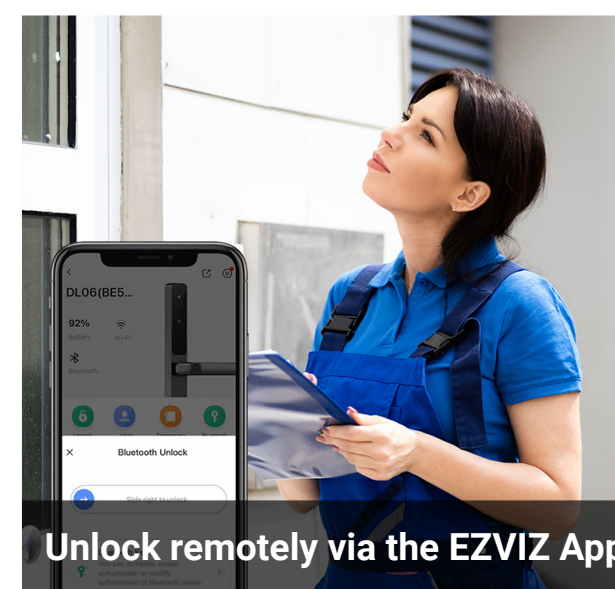

It's easier than ever to open a door for a visitor when you're out shopping or doing chores. The DL06 connects directly to your home or store Wi-Fi, allowing you to customize and grant access for people you trust.

Service people

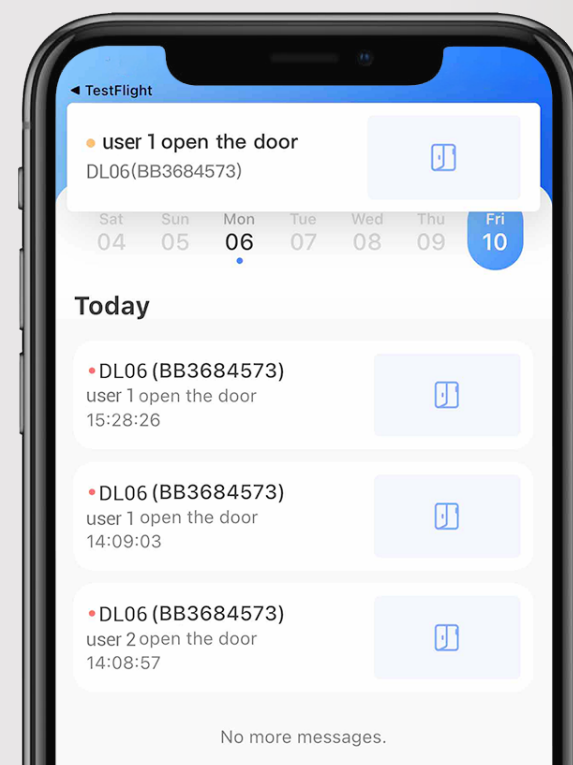

Family & friends

Long- & short-term tenants

Stay notified, feel securer

Get the message notifications via the EZVIZ App, whenever and wherever. You receive push notifications when your door is opened or when the lock's battery is low. You will also be alerted when there are suspicious activities of removing your lock or forced entry.

EZVIZ
HomePlay OS

Enhance whole-home security, starting with your front door

Explore DL06's smart potentials by connecting it to a collection of EZVIZ smart home products. With the help of an interlinked EZVIZ indoor PT camera², you know not only when the door gets opened, but also who enters with an auto-recorded video.

Stylish by design, simple by use

The DL06 features a modern, sleek design that's perfect for homes or businesses, making the most of narrow frames while adding a stylish, eye-catching touch.

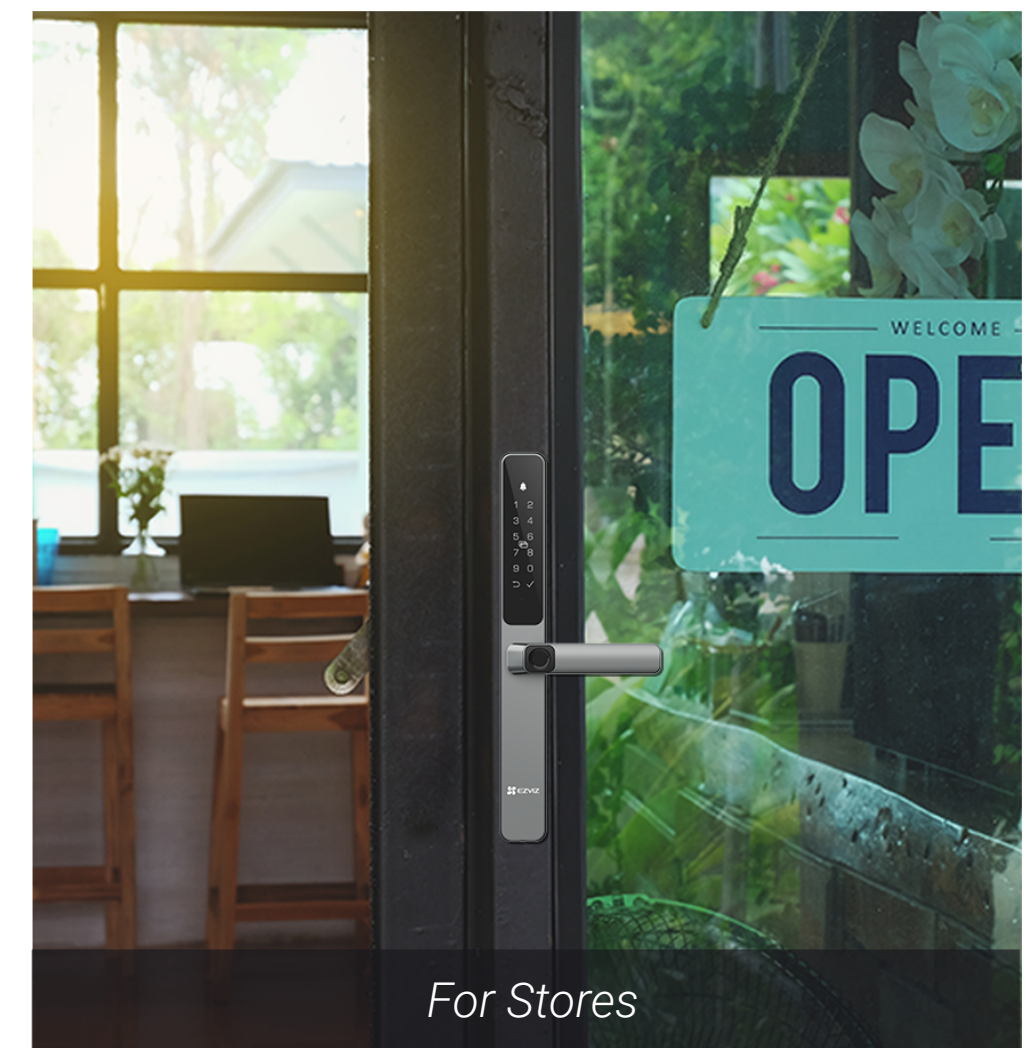

40 mm minimalist body

Built-in sensor for user-friendly design

For Homes

For Stores

Double-layered security, extra peace of mind

The DL06 makes sure your house is secure whenever you close the door, and it allows you to activate the child lock to prevent your energetic children or pets from accidentally opening the door from the inside.

You can also enable its privacy mode if you don't want to be disturbed – then only the administrator can open the door⁴ from the outside, and the lock's alarm sounds will be muted.

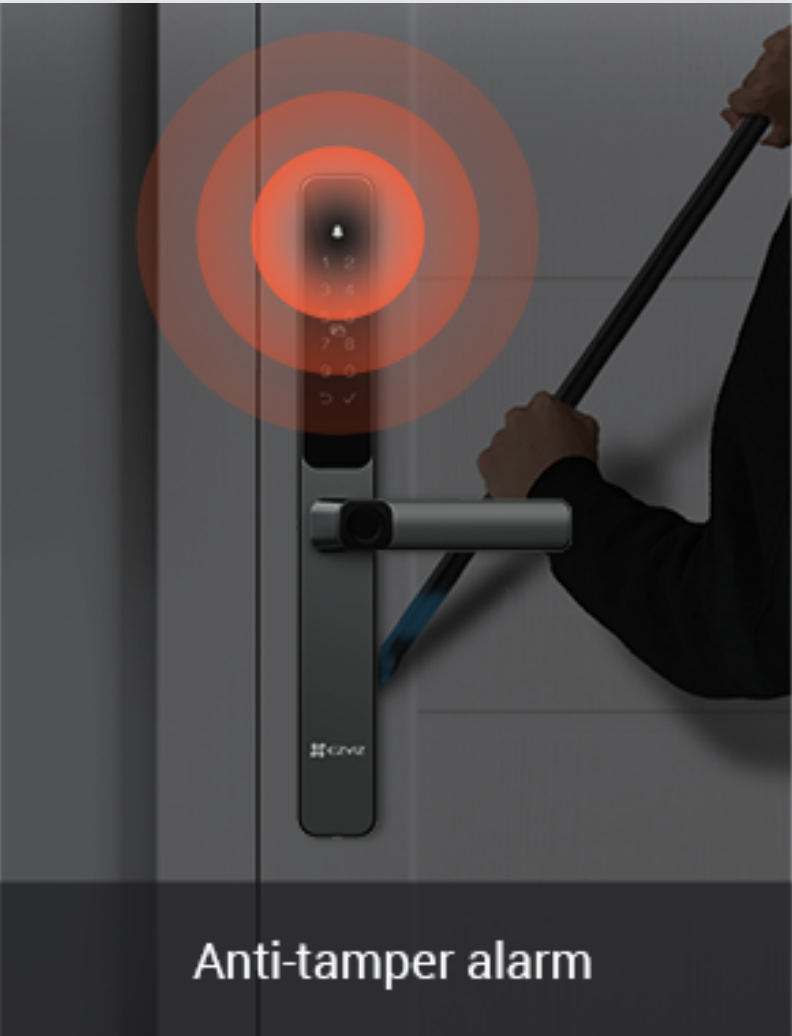

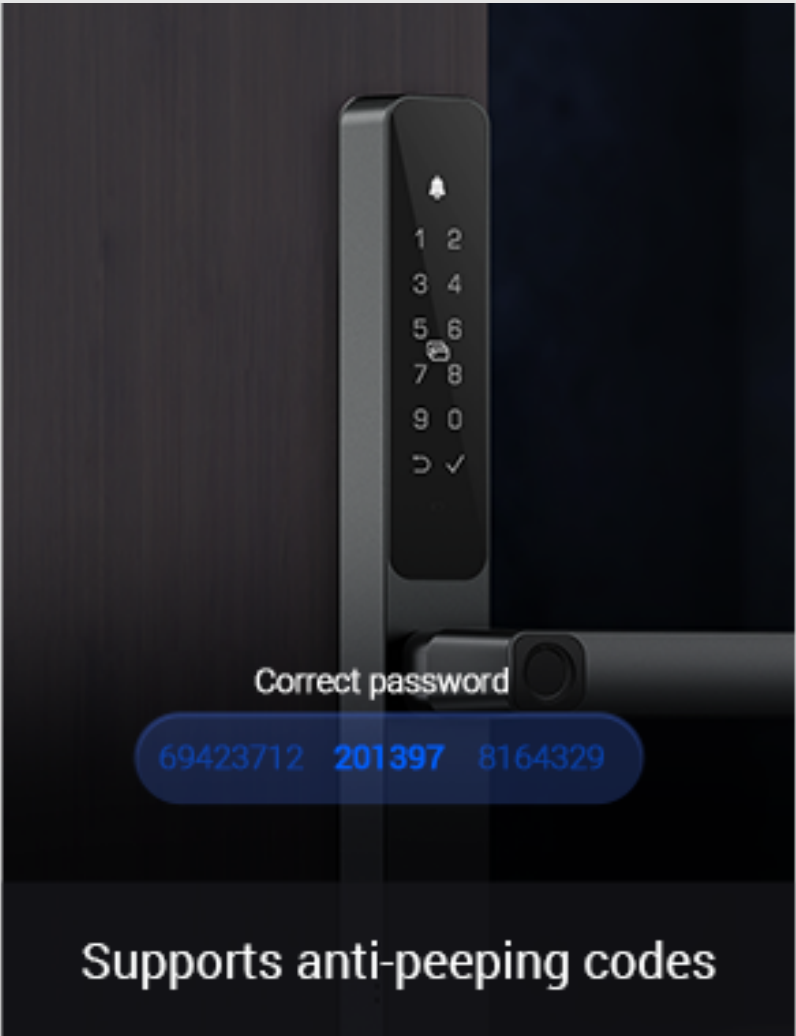

Child Safety Lock

Privacy Mode⁴

Sturdier than you
might expect

Reliable power for a busy household

The DL06 works on a rechargeable battery that can run relatively long on a full charge. You don't need to spend money on single-use batteries. Simply grab a power bank and let it reboot your lock.

- 1 Please note that only the exterior lock panel of the DL06 is rated IP55 to work in outdoor weather conditions, based on the EZVIZ Lab's test results.
- 2 The DL06 currently supports the following cameras to snap a photo or record a video at a certain preset viewing angle upon sensor detection: H6c, C6N, CP1, TY1, TY2. The list may grow as EZVIZ launches more compatible products in the future. Please refer to the device page on your EZVIZ App for detailed information about the supported integration.
- 3 The DL06 currently supports the T3C smart button for on-site Bluetooth unlocking within a communication range of 50 m, based on the test results in an open and interference-free environment. Actual use may vary due to the specific environment. To use this function, the user should first connect the DL06 to the Wi-Fi network to enable the EZVIZ App settings, and follow the pairing instruction on the device page to connect it with the T3C smart button via Bluetooth.
- 4 When the privacy mode is enabled, only the administrator can unlock the door using his / her fingerprints, passcodes or proximity cards, or anyone with the mechanical emergency key.

Specifications

CS-DL06-R100-WBCP-GR

Material and Specification

Panel Material	Aluminum alloy
Panel Size	331 × 40 × 25.8 mm
Color	Metallic grey
Lock Body Type	Lift-up lock body
Lock Cylinder	2885 / 3585 / 4585
Weatherproof	IP55 (front panel)
Emergency Charging	Type-C
Working Power	1,450 mAh rechargeable lithium battery
