

Alarm Light Camera

Smart to warn. Built to protect

***Works with all EZVIZ
Smart Home Sliding Gate Opener***

Key Features

- **Real-Time Viewing & 2K Recording:** Captures the entrance area in 2K resolution for high-detail monitoring. In the EZVIZ App, you can access live view and recorded video at any time to verify visitors and visually confirm gate opener operation.
- **Smart Human Motion Detection:** Uses person detection to identify human movement and loitering events, while filtering non-human motion (e.g., animals, moving shadows, vegetation) to reduce false alerts. Notifications are sent immediately when a human event is detected.
- **Siren & Strobe Warning:** During gate movement (opening/closing), the device outputs an audible siren and high-intensity strobe flashes to provide on-site visual and sound warning, improving situational awareness and access safety.
- **High-Performance Wi-Fi HaLow™ Connectivity:** Built on Wi-Fi HaLow™ for extended range and stronger penetration, enabling more stable connections and smoother live streaming over longer distances. Works with the indoor chime to maintain a reliable link for consistent video transmission with reduced latency and dropouts.
- **2-Wire Installation:** Simplified 2-wire interface enables fast wiring and clean integration between the alarm light camera and the gate opener, reducing installation complexity compared with multi-wire or legacy configurations.

A smart guardian that sees and secures

01 Detects and records what you care

Built-in as a full-featured outdoor security camera, it records every arrival and departure in crisp 2K detail. Check in instantly with live view on the EZVIZ App, so you can see what's happening at your gate anytime, from anywhere.

-  Crisp Live Viewing & Recording
-  Human Motion Detection
-  Customizable Detection Zone

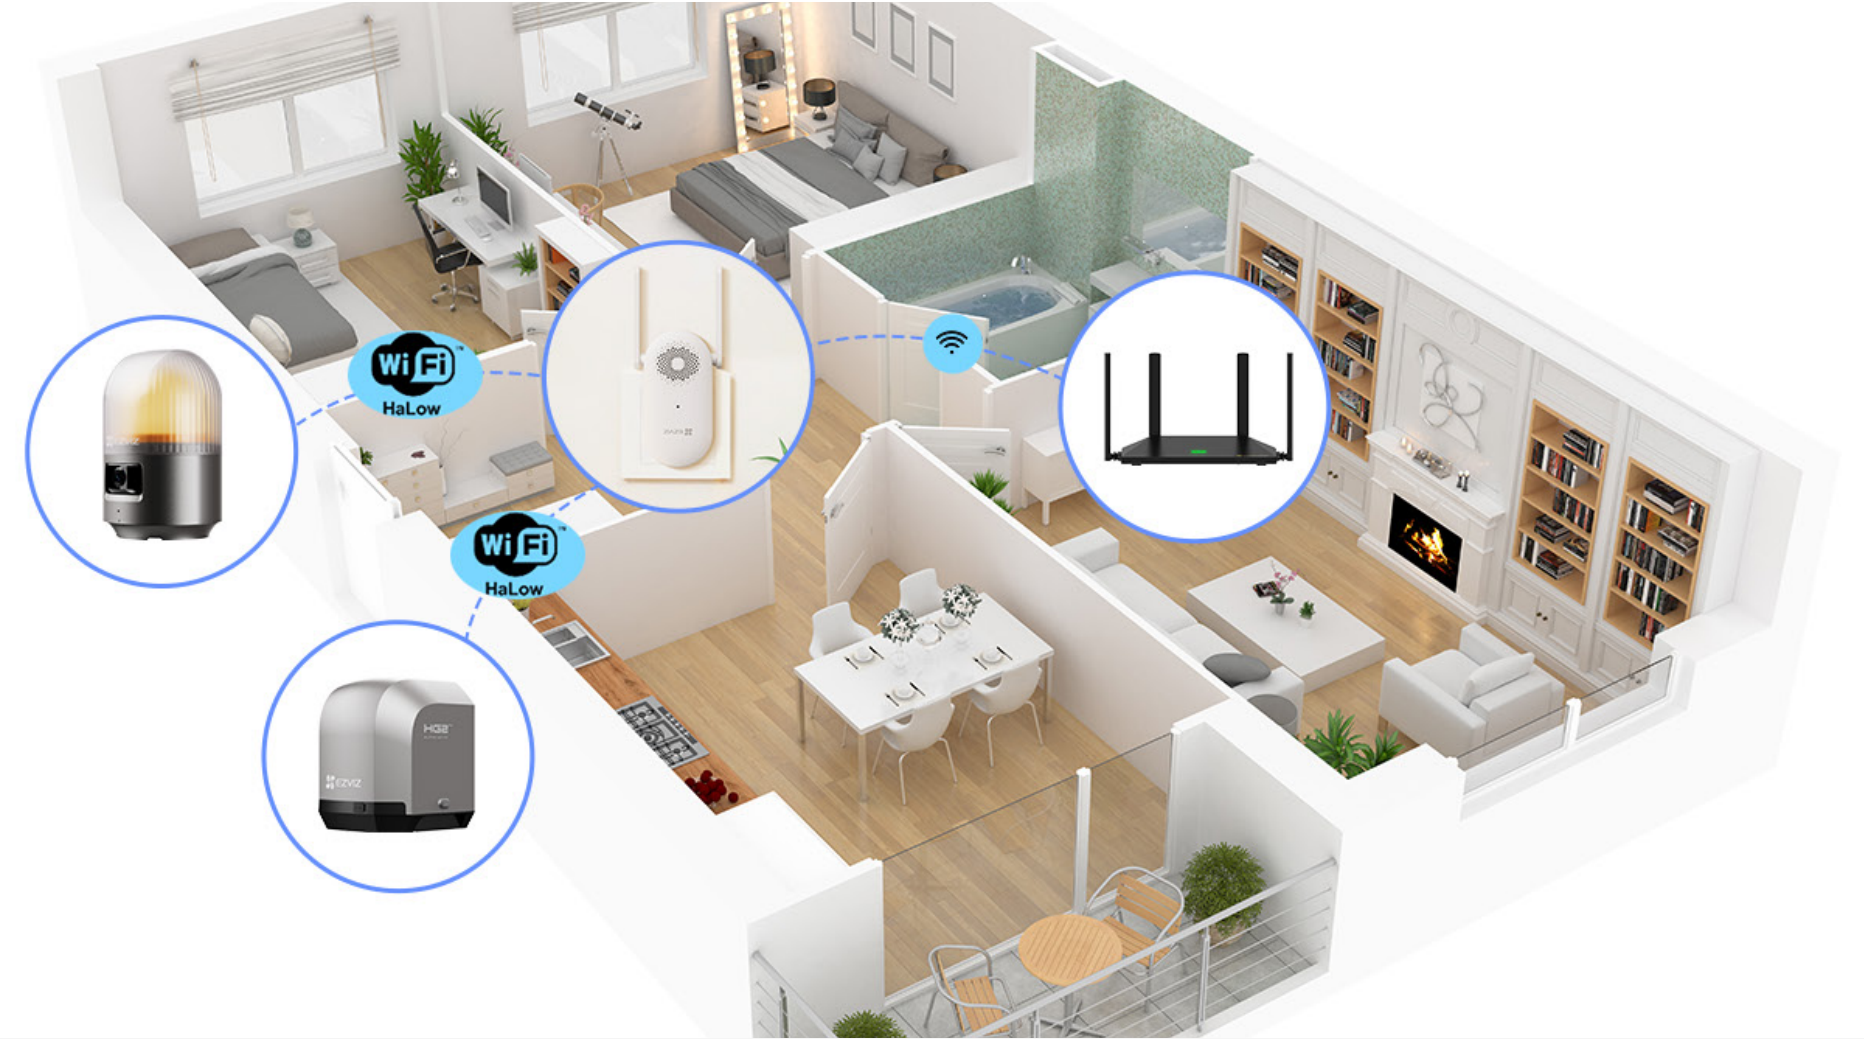

02 Flashes to warn, day and night

The moment your gate starts moving, the camera springs into action with a powerful siren and high-visibility strobe flashes. It's an unmistakable alert that keeps everyone aware and adds strong, instant protection to your entrance.

Steady connection, wireless and worry-free

Powered by Wi-Fi HaLow™, the alarm light locks onto the indoor Chime with a long-range, ultra-stable connection. That means buttery-smooth live view and clean, reliable recordings, even across larger properties.

Fast and easy setup, ready for every scenario

With a simple 2-wire connection, the alarm light links to your gate opener in minutes—no complicated wiring, extra labor, or surprise costs. Two mounting options give you the freedom to position it where it works best for your entrance and security needs.

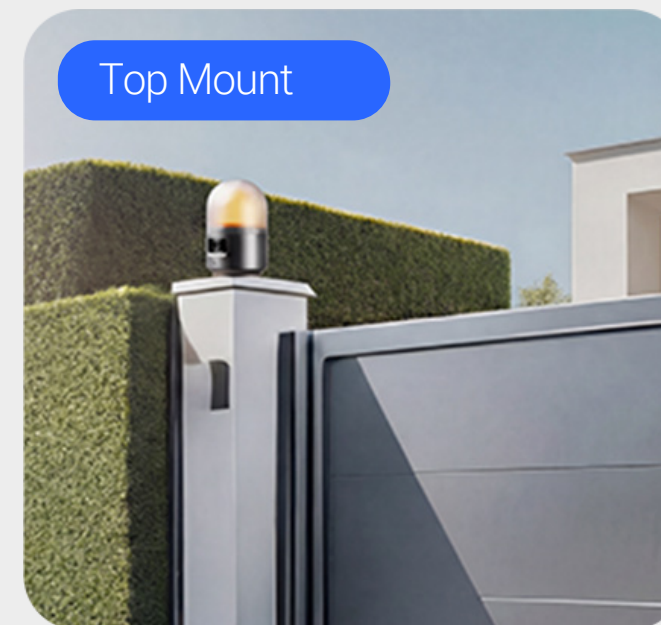

Hassle-Free 2-Wire Installation

Dual set-up modes to meet different needs

More features you can rely on

Respond with high-quality audio

Easily respond to any visitor by simply using your phone to speak remotely. The camera can also auto-play a recorded voice message when a motion is detected.

Save your videos with two options

Safely store important moments or cute memories on a large local storage card, or by subscribing to the EZVIZ CloudPlay.¹

Deliver protection, rain or shine

With a robust weatherproof design, the alarm light camera ensures continuous operation, making it your reliable partner in all weather scenarios.

¹ The local storage card must be purchased separately. The cloud storage service is only available in certain markets. Please verify the availability before making a purchase.

Specifications CS-HGC2-R100-8H3HFL

Alarm Light Camera

Resolution	2K (2048 × 1536)
Day & Night	IR-cut filter with automatic switching
Connection Method	Wired connection with gate opener (2-wire), digital signal transmission
Intelligent Alarm	Smart human motion detection and loitering detection
Operation Conditions	-30°C to 55°C , humidity 95% or less (non-condensing)
Protection Rating	IPX5
Size (Without Package)	90 × 90 × 138 mm
Size (With Package)	125 × 125 × 162 mm
Weight (Without Package)	314 g
Weight (With Package)	576 g
