

EZVIZ DL05

Smart Fingerprint Lock

6068 Lock Body

Enjoy easy keyless entry of a safe home

The DL05 sticks to the core values of a truly smart lock – easy to unlock, smart in controls, and safe by design. Connected via Bluetooth or Wi-Fi, it boasts flexible unlocking methods, and connects you to your home wherever you are via the EZVIZ App. Under a modern and sleek appearance, its sturdy lock body and multiple safety features help guard your entrance properly.

Fingerprint Unlocking

Passcode & Proximity Card Unlocking

Remote Unlocking via the EZVIZ App

Real-Time Mobile Alerts

Supports Anti-Peeping Codes

Weatherproof Design¹

Smart Integration with EZVIZ Cameras²

Built-In Doorbell

Anti-Tamper Alarm

Low-Battery Warning Alarm

Supports Type-C Charging in Emergencies

ASIA DESIGN PRIZE 2025 WINNER

Home access at your fingertips

Now you don't have to be anxious about losing your key or forgetting long codes. Simply grab the handle to naturally place your fingertips on the scanner, then you're in.

 Processes & stores fingerprints locally

 Stores up to 50 pieces of fingerprints

Unlock as you prefer, for ones your trust

Swipe open or tap in permanent/temporary passwords.

Or, use smartphones to open or assign access remotely.

Unlock door remotely via your mobile phone

Share the bluetooth key to your family

Create temporary passcodes for visitors

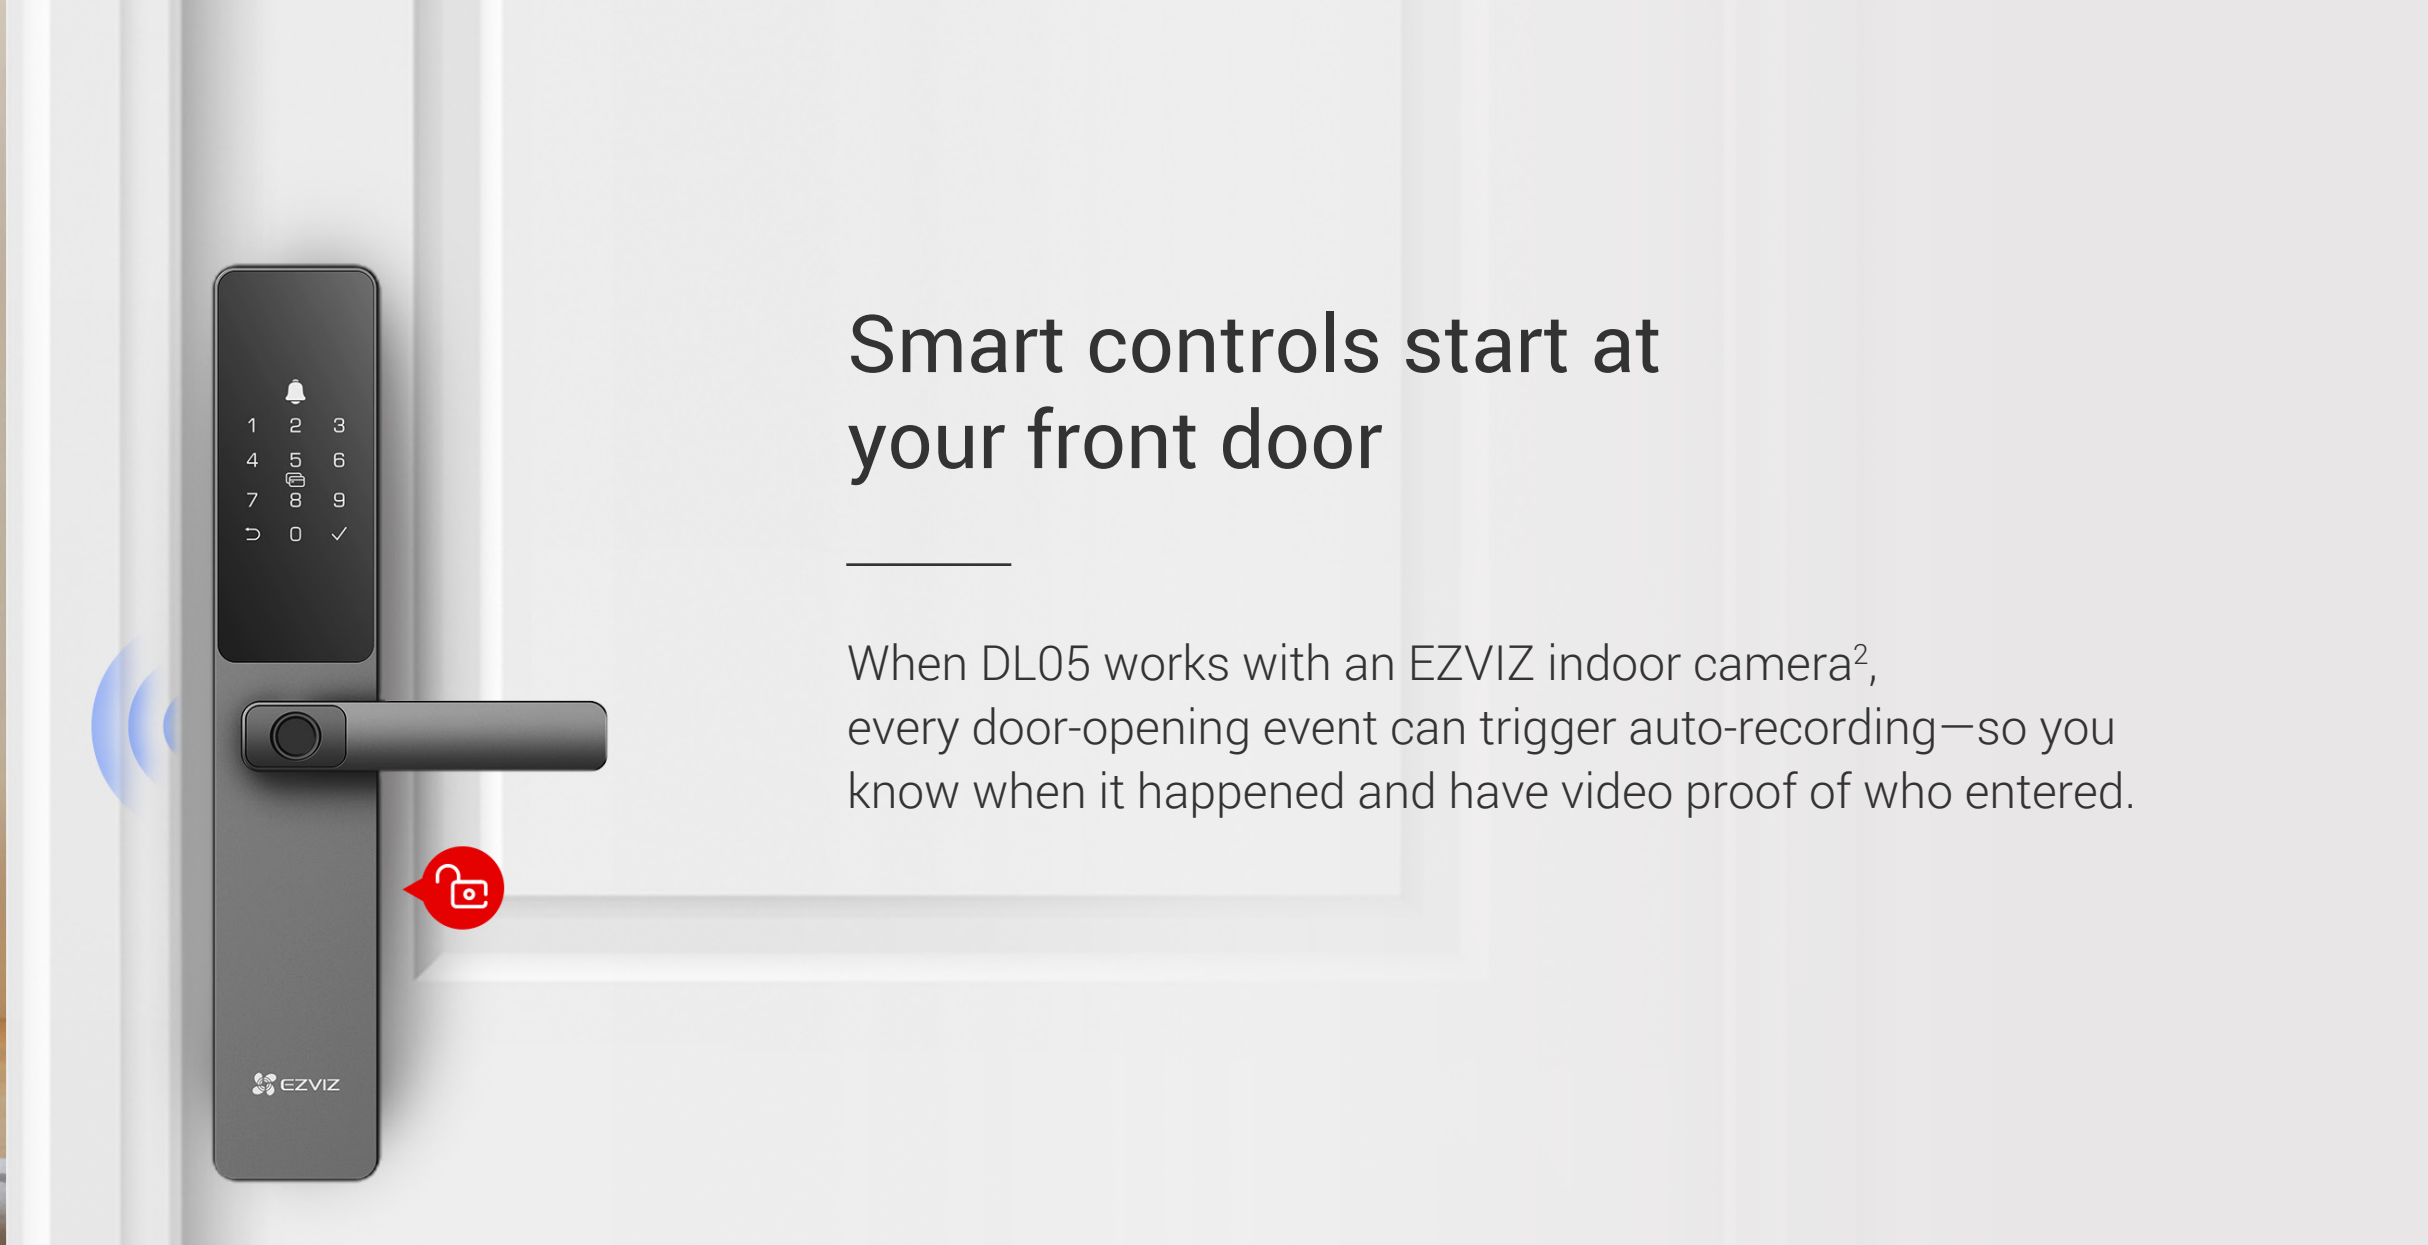

Add new members to unlock the door

Stay notified, feel securer

Get the message notifications via the EZVIZ App, whenever and wherever. You receive push notifications when your door is opened or when the lock's battery is low. You will also be alerted when there are suspicious activities of removing your lock or forced entry.

*The illustrated lock is installed in the 6068 lock body.

Smart controls start at your front door

When DL05 works with an EZVIZ indoor camera², every door-opening event can trigger auto-recording—so you know when it happened and have video proof of who entered.

Wrong-Attempt Protection³

Privacy Mode⁴

Child Safety Lock

Interior Lockout Function

Multi-Layered Security for extra peace of mind

Designed to strengthen front-door security, the smart lock provides three layers of protection:

After five successive incorrect entries, the lock disables further unlocking attempts in three minutes.

Protects your privacy by allowing outside access only to the administrator when Privacy Mode is on.

Enables it by pressing down the indoor button to prevent accidental unlocking from inside.

When the interior switch is set to the lockout position, exterior unlocking is disabled. The door can then be unlocked only by turning the interior turnpiece.

Sturdier than you might expect

Supports anti-peeping codes

Anti-tamper alarm

IP65 weatherproof design¹

Plenty of power for a busy household

The DL05 offers a long standby time – up to 365 days⁵ – and it's easy to change the batteries when needed. You can switch between the Wi-Fi mode and the Bluetooth mode via the EZVIZ App to make better use of the battery.

Up to 1-Year Battery Life⁶

Emergency Power Supply

1 Please note that only the exterior lock panel of the DL05 is weather-resistant.

2 The DL05 currently supports the following cameras to snap a photo or record a video at the certain preset viewing angle upon sensor detection: H6c, C6N, CP1, TY1, TY2. The list may grow as EZVIZ launches more compatible products in the future.

3 The wrong-attempt protection function is supported when using the fingerprint, passcodes or proximity cards to unlock the door.

4 When the privacy mode is enabled, only the administrator can unlock the door using his/her fingerprints, passcodes or proximity cards, or anyone with the mechanical emergency key.

5 When being connected via Bluetooth with the Wi-Fi mode disabled, the lock can run up 365 days with fully charged batteries based on the usage of 10 openings per day. When the lock is connected via Wi-Fi, its battery life may reduce due to internet activities, and the actual use may vary due to the network stability or other environmental factors. When your home network is not reliably stable, it is recommended to turn off the Wi-Fi mode to better manage the lock's battery usage.

6 Due to variations in national transport restrictions, specifications and final delivered items shall be determined by the actual shipment.

Specifications

CS-DL05-R201-WBCP-GR (6068)

CS-DL05-R200-WBCP-BK (6068)

Material and Specification

Panel Material	Aluminum Alloy
Panel Size	360 × 67 × 27 mm
Color	Metallic Grey
Unlocking Methods	Press the handle down to unlock; lift the handle up to lock.
Lock Body	6068
Weatherproof	IP65 (Front Panel)
Emergency Charging	Type-C
Working Power	1.5V AA alkaline batteries × 8

Technical Specification

Unlocking Methods	Fingerprint, Passcode, Proximity Card, Mechanical Key, Bluetooth Key via the EZVIZ App, Temporary Codes, Remote Unlocking
User Capacity	50 pcs
Fingerprint Capacity	50 pcs
Passcode Capacity	50 pcs
Card Capacity	50 pcs
