

EZVIZ DL50FVS Plus

Face Recognition & Palm Vein Smart Lock

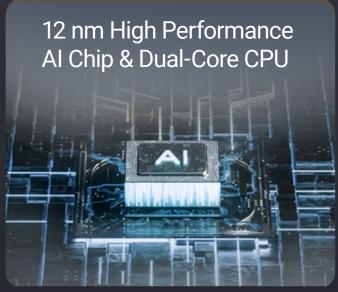

Unlock the AI power of your front door

Powered by EZVIZ
Next-Level AI

Runs on Industry-Leading Video Tech

Protects for
Utmost
Peace of Mind

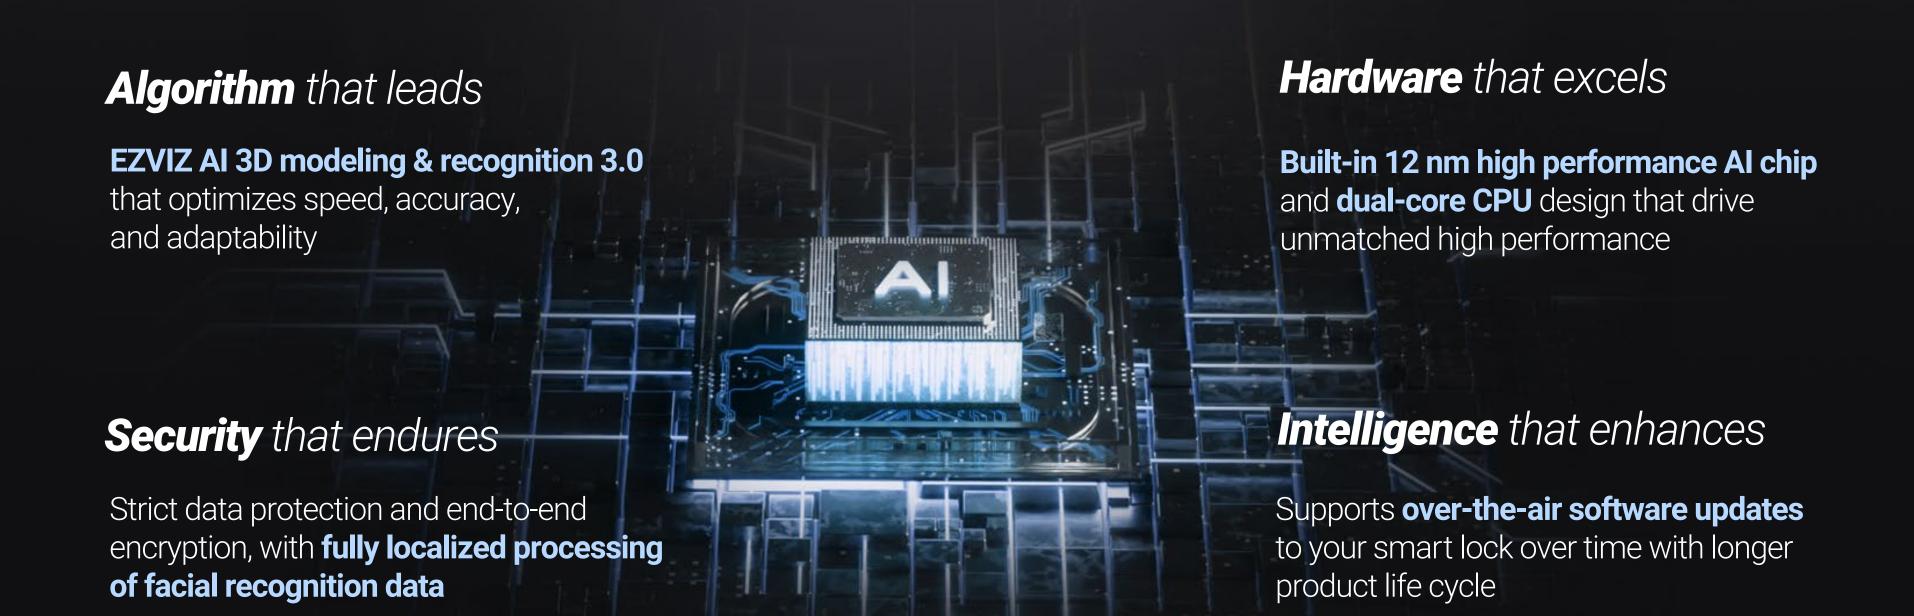

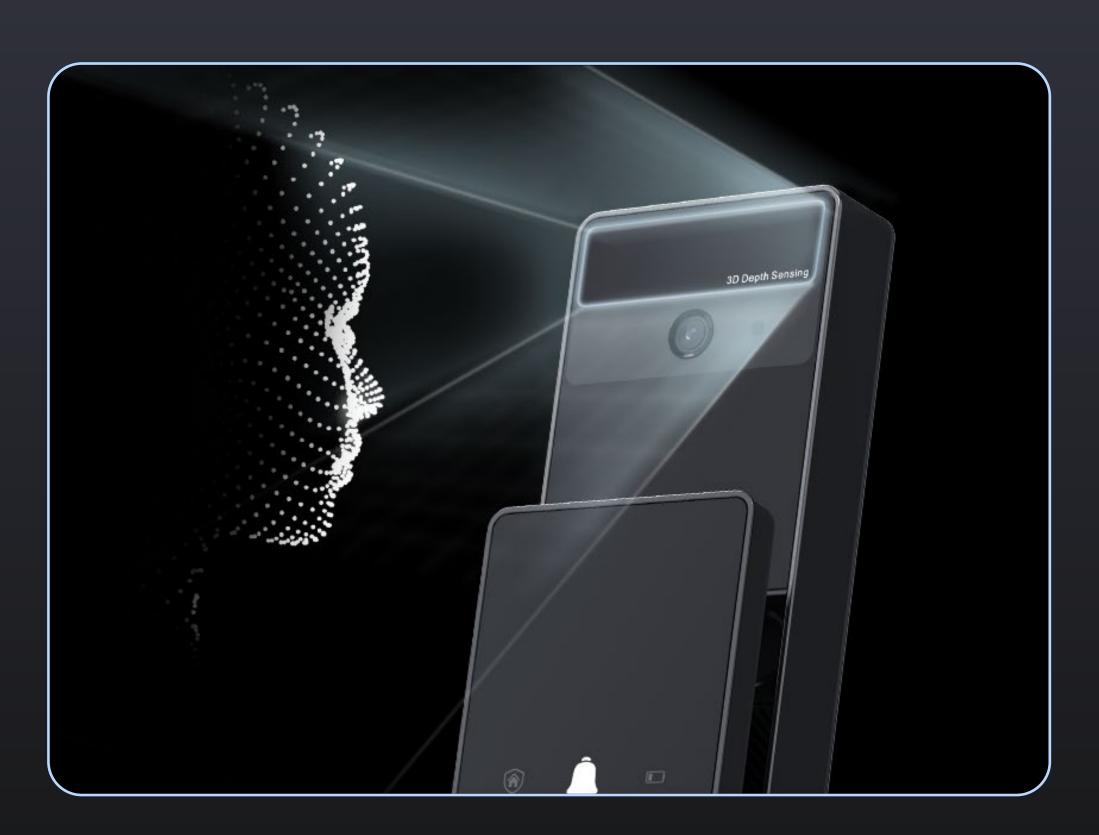

Next-generation AI built for smart locks

Only very few companies in the lock market develops and owns AI technologies, and fewer can bridge them with useful, user-friendly products through extensive real-life testing. EZVIZ is one of them.

State-of-the-art AI for convenience & security

≤1 second unlocking time³

for instant response & ultra-smooth experience

≤0.0001% false acceptance rate⁴

to ensure extremely high level of security while being fast in recognition

≤0.1% false rejection rate⁵

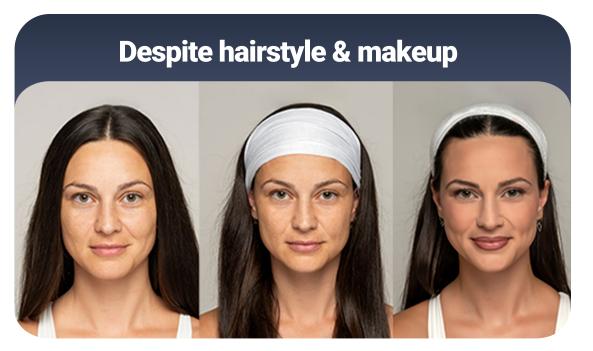

to greatly reduce frustration caused by repetitive verification

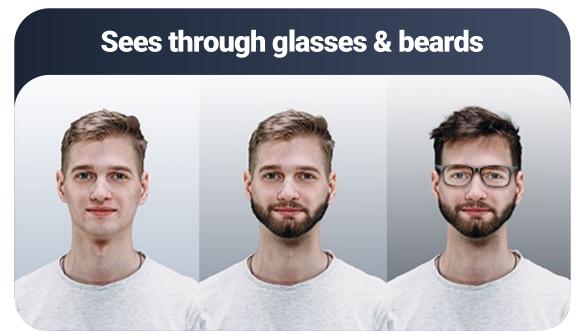

Access granted on approach, only to the right person

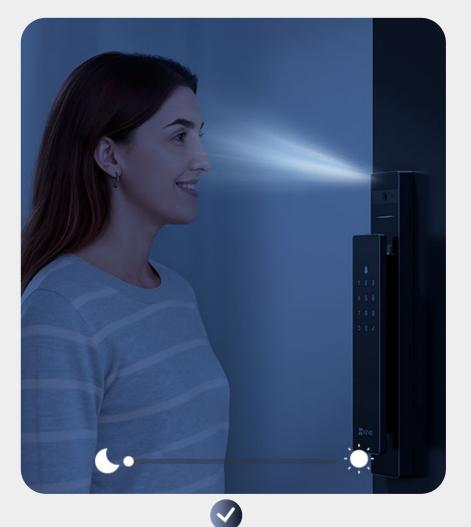

Your face, your key, unlocking made faster and easier

With the DL50FVS Plus, coming home is safe and stress-free. Unlike traditional locks, it recognizes your face instantly as you approach, so there's no need to fumble for keys, remember codes, or wait for the door to respond. Its advanced AI 3D Modeling and Recognition 3.0 works reliably even if your hairstyle, makeup, or accessories change, ensuring fast and secure access every time.

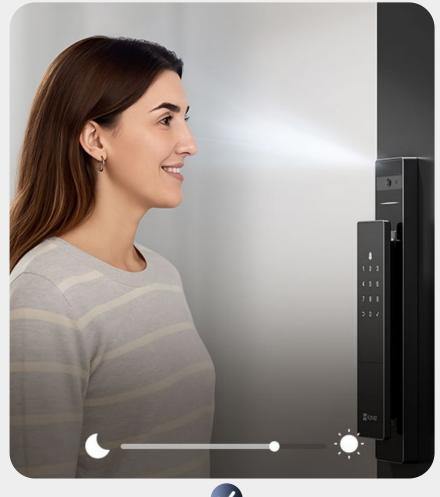

Dim hallway

Bright daytime

Unlocks smoothly, whether in dim or bright light

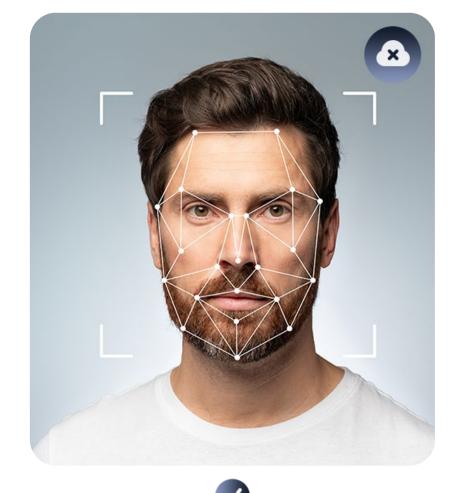

Even with bright sunlight behind you on hot summer days or low light around you at dawn, the DL50FVS Plus sees you clearly. Its advanced 3D in-depth sensing technology adapts to any background lighting, so you can enter home easily.

Unlocks only for you, no fakes, no exceptions

Advanced anti-spoofing technology ensures that photos, videos, or other images cannot trick the lock, while all personal data is securely stored locally, giving you full control and peace of mind.

Can't be fooled by photos, videos,
3D masks or statues

Localized 3D data processing without real-life user photos stored or transmitted

Easy for kids, secure for adults, unlocking for the family

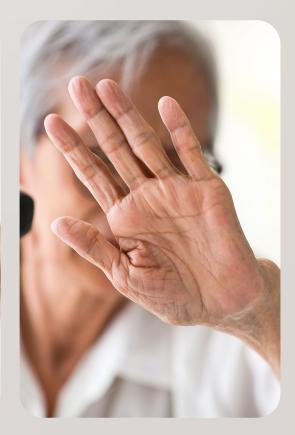

Wave your hand and go. With highly sensitive palm vein recognition, the DL50FVS Plus unlocks immediately, offering a secure and convenient solution for the whole family, no matter their age.

Less constraints from face coverings

Less restriction on users' height

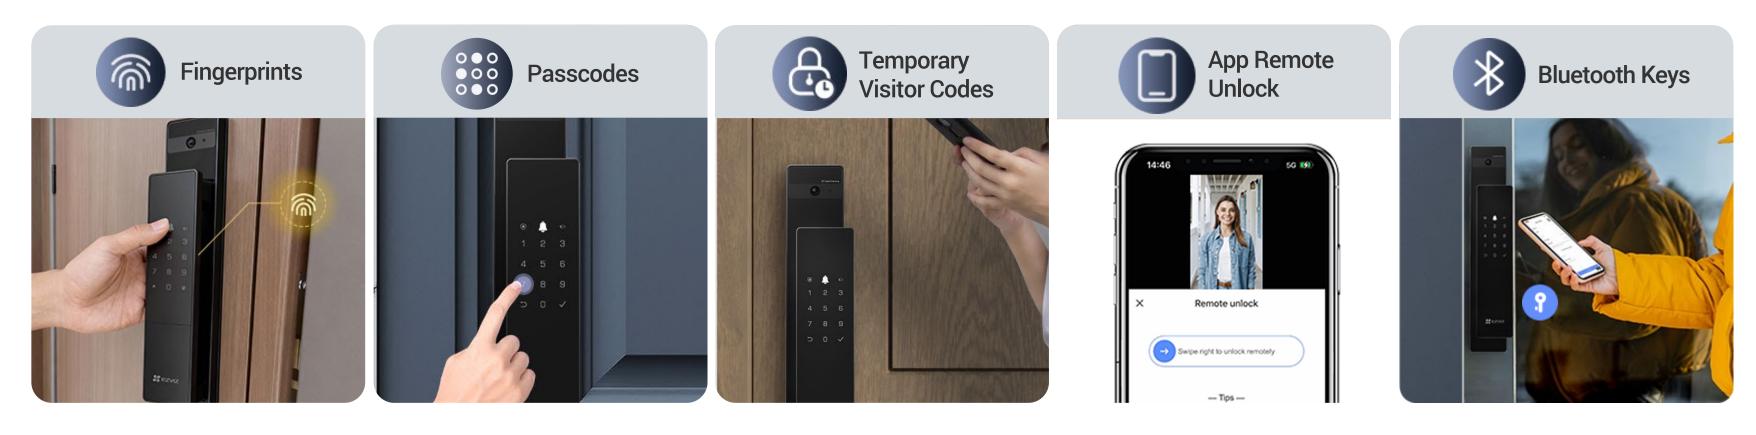

Less worries on worn fingerprints

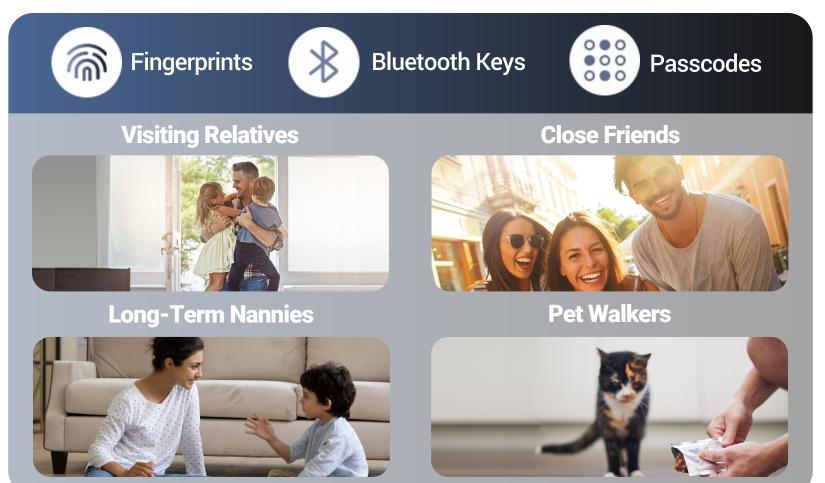

More ways to enter for tailored convenience

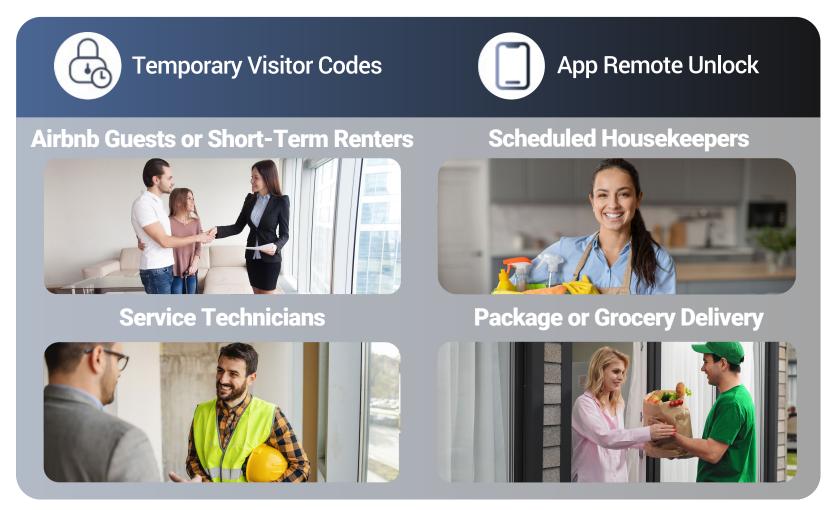

Your household can be busy with comes and goes, and you may not always be there to welcome the ones you trust. Choose what's convenient for your family and visitors, while keeping your front door under your watch.

For regular visitors

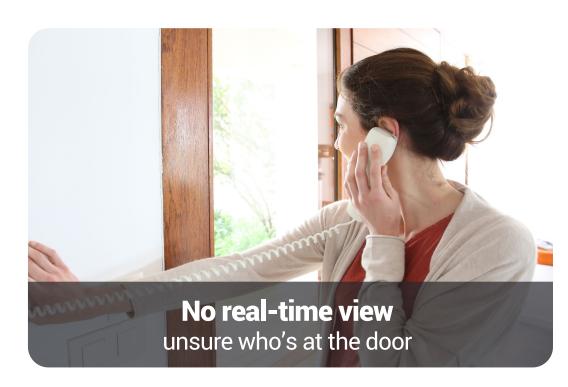

For services & deliveries

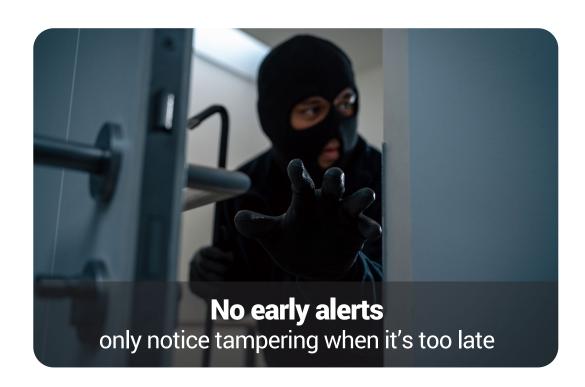

Why you want your lock to be more than a lock

Users expect more from a smart lock because they struggle with some difficult times, which requires flexibility, security, and convenience beyond just opening a door.

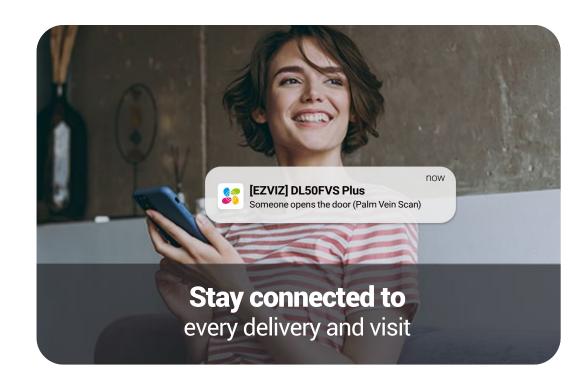

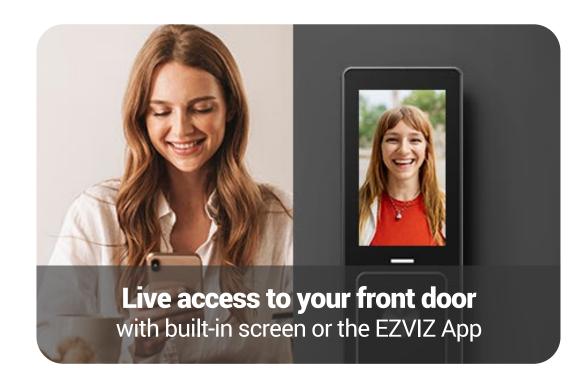

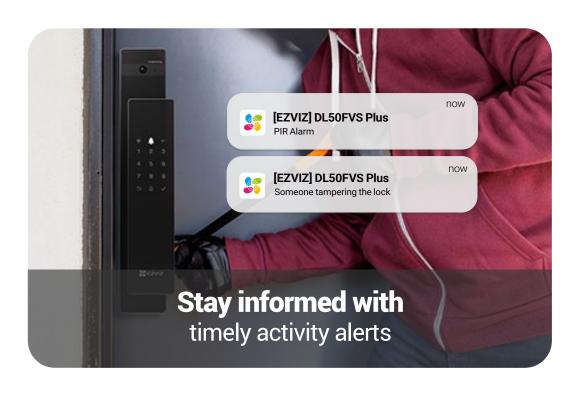

One multi-purpose product offers total peace of mind

Here's what DL50FVS Plus offers

Much better than your old peephole

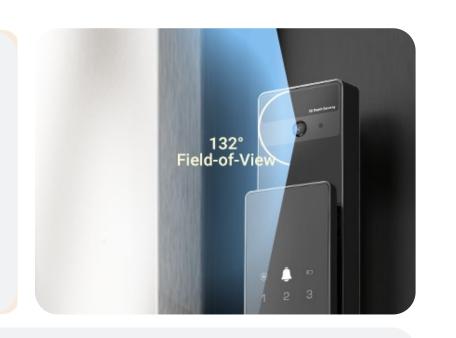

See more with a wide-angle view

The smart lock features a built-in camera that delivers a clear, wide-angle view of your doorstep.

Two-Way Talk with Voice Changer

Check visitors with the indoor screen

The indoor screen helps everyone, from kids to grandparents, see who's at the door before unlocking, with no smartphone needed.

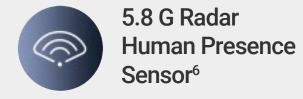

Crisp Video Clarity

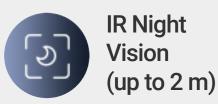

4-Inch Color Screen

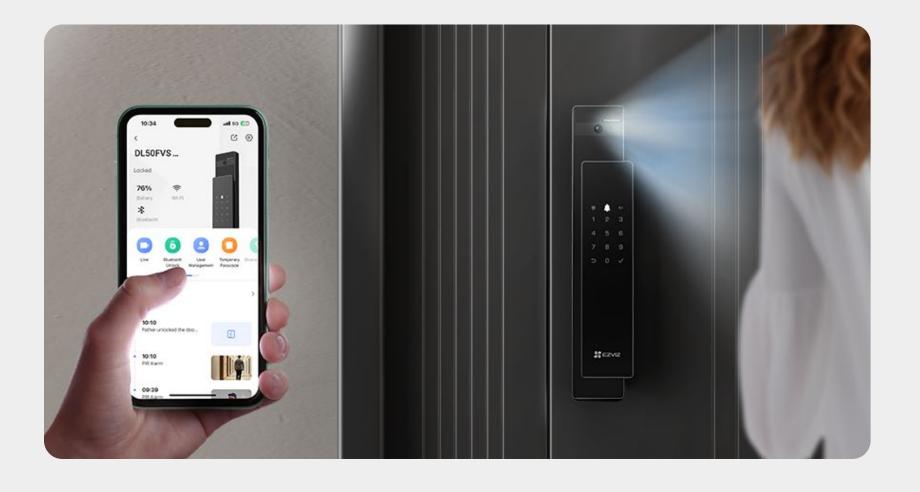

Active and smart as a security guard

Thanks to EZVIZ's smart visual technology, your lock knows when someone's near, or hanging around. It detects human movement by your door and sends instant alerts, keeping you in the know, day and night.

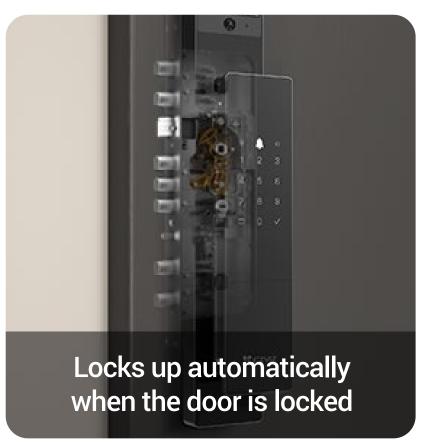

t tm) Detection Video Replay (Built-in 8 GB memory)

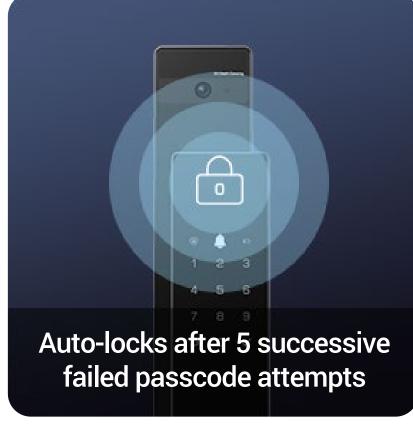

Security you can trust in every part

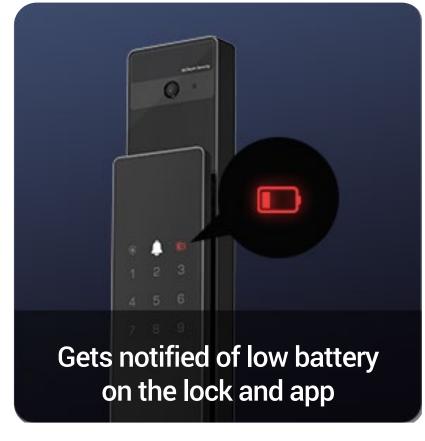

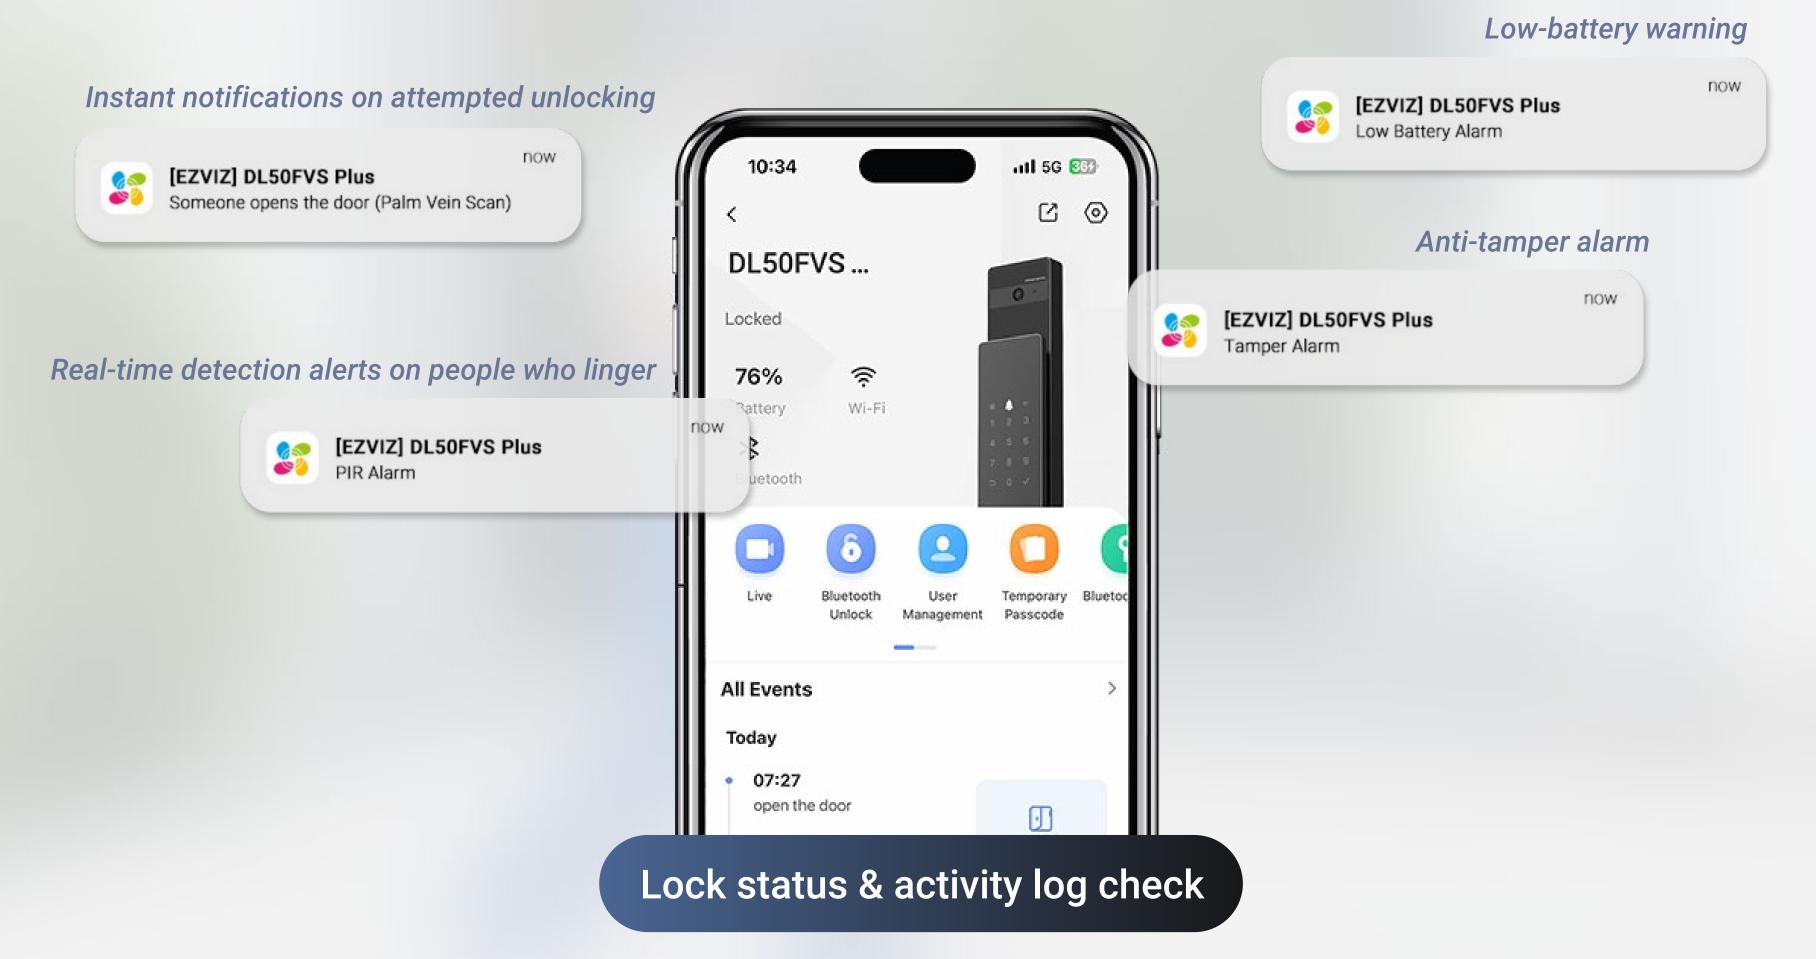

Extra peace of mind, all at your fingertips

^{*} For illustration purposes only.

Stand strong and protect always

Designed to endure real-world conditions, the smart lock passes rigorous testing for weather resistance, long-term use, and electrical safety, delivering reliable protection you can count on.

96 Hours

Neutral Salt Spray Test

15 KV

Air Electrostatic Discharge Test

100,000 Times

Full Device Life Cycle Test

-10°C ~ 55°C

High and Low Temperature Test

User-friendly design that elegantly fits into every door

Bring elegance and ease into every touch with the DL50FVS Plus. Its gracefully curved, ergonomic handle ensures effortless comfort for every family member, from children to grandparents. With a customizable design that lets you adjust the handle or keypad to either side, you can create a setup that perfectly suits your space and style. Thoughtfully engineered to prevent finger pinching, the DL50FVS Plus combines beauty, safety, and convenience in one seamless experience.

Power that lasts, anytime you need

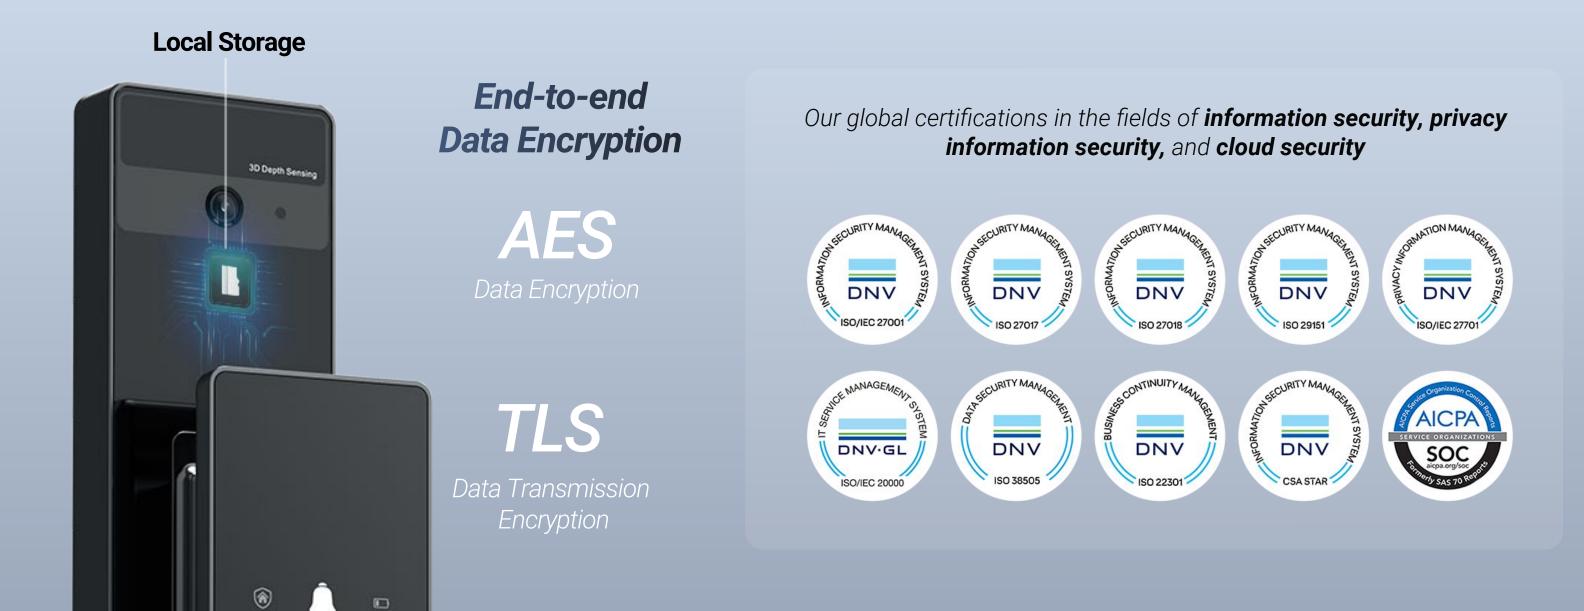

The DL50FVS Plus features a 5,000 mAh rechargeable battery that keeps your home secure for a long time. If it ever runs low, simply plug in a power bank to unlock and recharge quickly.

We're committed to protecting with trust

We put security as the primary goal of every product and system that we build, and assiduously improve our practices to better protect your device, data and privacy.

Learn more about our security practices >

- 1 Please note that the palm vein scanning area does not include fingers. When using the palm vein unlocking function, please place only the palm part on the scanner. The optimal palm vein scanning distance ranges from 15 cm to 25 cm for adults, with a recommended distance of 10 cm for children. These distances may vary depending on environmental conditions, such as strong sunlight.
- The biometric recognition technology in DL50FVS Plus operates ENTIRELY LOCALLY on the product that you control and manage yourself, and only serves the sole purpose of supporting your decision of unlocking. During the whole course, the saved data always only contains technical value, i.e. the biometric data obtained from the templates you proactively provided in advance (such as facial images, palm vein templates), which cannot be used to reconstruct your original data.
- 3 Data from EZVIZ Lab's testing results based on standard conditions. The actual recognition speed may vary due to environmental factors.
- 4 Data from EZVIZ Lab's testing results based on standard conditions. The actual false acceptance rate may vary due to various objective factors, such as heavy makeup or strong sunlight exposure.
- 5 Data from EZVIZ Lab's testing results based on standard conditions. The actual false rejection rate may vary due to various objective factors, such as heavy makeup or strong sunlight exposure.
- 6 The human presence sensing feature uses the built-in radar sensor and does not involve the detection of human faces. You can choose to activate or deactivate this function on the EZVIZ App.
- When being connected via Bluetooth with the Wi-Fi mode disabled, the lock can run up to 4 months with fully charged batteries based on the usage of 10 openings per day. When the lock is connected via Wi-Fi, its battery life may reduce due to internet activities, and the actual use may vary due to the network stability or other environmental factors.

Specifications CS-DL50FVS Plus

Material and Specification

Panel Material Aluminum alloy

Panel Size Front panel: $400 \times 72 \times 22.5$ mm

Rear panel: $400 \times 72 \times 30.5$ mm

Color Metallic grey

Lock Body Type Automatic mechanical detection lock body 5085 / 6068

Lock Cylinder C-level cylinder

Emergency Charging Type-C

Working Power 5,000 mAh rechargeable lithium batteries

Technical Specification

Unlocking Method Face ID, Palm Vein, Fingerprint, Passcode, Mechanical key,

Bluetooth key via EZVIZ App, Temporary codes,

Remote unlocking

User Capacity 50 pcs

Face ID Capacity 50 pcs

Palm Vein Capacity 50 pcs
Fingerprint Capacity 50 sets

Passcode Capacity 50 pcs

Communication Methods 2.4 GHz Wi-Fi, Bluetooth

Screen (Non-touch) IPS 4-inch (480 × 800)

IP Grade IP52

Front Panel Camera

1080 × 1656

Resolution

Front Panel Camera Lens View angle: 70° (Horizontal), 105° (Vertical),

132°(Diagonal)

IR Night Vision Distance 2 m

Storage EMMC 8G, Supports EZVIZ CloudPlay storage

(Subscription required)

Face Recognition Standing distance < 1m, height greater than 1.2 m and

less than 2 m

Recognition speed <1s, supports day / night recognition Supports recognition across varying hairstyle and with

glasses

* EZVIZ laboratory data

Palm Vein Recognition Recognition distance between the palm vein and sensor:

15~25 cm

Please note that only the palm area can be recognized, the fingers are not within the identification range

* EZVIZ laboratory data

Software Function Anti-peeping code, Low battery warning, Privacy mode,

User management, Real time notification, Anti-test

locking, Anti-tamper alarm, Remote control, Video calling,

Voice changer, Wandering detection

Supported Door Thickness 6068: 40 ~ 120 mm; 5085: 40 ~ 100 mm

Working Temperature $-10^{\circ}\text{C} \sim 55^{\circ}\text{C}$

Operating Humidity 10% ~ 95%
