### Overview

## 1. Package Contents

## 2. Basics

### Name Description

Button

Press the button once, twice or press and hold the button, the custom operations or scenes on the app can be performed.

RESET Button

LED Indicator

Press and hold the RESET button for over 5s, the smart button will restart and then enter device adding mode.

- · Fast-flashing Blue: Enters device adding mode.
- Fast-flashing Blue and then off: Added to the Gateway successfully.
- Fast-flashing Blue and then off in 180 seconds: Failed to be added to the gateway.

# **Get the EZVIZ App**

- 1. Connect your mobile phone to Wi-Fi (suggested).
- 2. Download and install the EZVIZ app by searching for "EZVIZ" in the App Store or Google  $Play^{TM}$ .
- 3. Launch the app and register an EZVIZ user account.

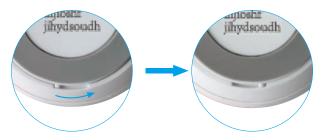

i If you have already used the app, please make sure that it is the latest version. To find out if an update is available, go to the app store and search for "EZVIZ".

# **Preparations**

### 1. Remove Cover

Remove the cover of the smart button by turning the antiskid ring counterclockwise as shown in the figure below.

# 2. Remove Insulation Strip

Remove the battery insulation strip as shown in the figure below.

- If you need to replace the battery, please purchase one CR2032 210mAh.
  - · When replacing batteries, please insert with the positive side facing up.
  - · Keep your hands dry and clean when touching the circuit board.

## **Add Device**

The smart button should be used along with EZVIZ Zigbee Smart Gateway (afterinafter referred to as "gateway"). Please add gateway to the EZVIZ Cloud by referring to the gateway user manual, and then add the smart button to the gateway.

# 1. Method One: Add by Scanning QR Code

- Log in to your account through EZVIZ app, tap the device adding icon and then the QR code scanning interface will be displayed.
- 2. Scan the QR code on the user manual, and then add the sensor to the gateway.  $\label{eq:code} % \begin{center} \end{constraint} \begin{center} \end{center} \begin{ce$

- 3. Add the smart button to the gateway by following the wizard on the app.
- Align the cover detaching convex with the cover detaching groove as shown in the figure below. Rotate the cover clockwise to tighten cover.

## 2. Method Two: Add by the Gateway

- i When adding device by the gateway, place the device as close to the gateway as possible.
  - 1. Make the gateway enter device adding mode as instructed by the user manual of the gateway  $\,$
  - 2. Press and hold the RESET button for over 5 seconds until the indicator on the smart button turns fast-flashing blue, and the smart button enters adding mode.
  - 3. The smart button will be added to the gateway automatically.
  - 4. Align the cover detaching convex with the cover detaching groove as shown in the figure below. Rotate the cover clockwise to tighten the cover.

# Installation

1 The smart button can be put on the table, or be sticked on where you want through the double-sided tape on the cover of the smart button.

### 1. Put on the table

Fig. 1 Put on the table

# 2. Stick at Where You Want

Fig. 2 Stick at where you want

- · Do not install the smart button on metal doors because metal will cause signal attenuation. You can install it on walls beside metal doors.
  - · It is recommended that the distance between the smart button and gateway be less than 20m. If there are walls between them, the number of walls should be no more than 2.
  - · Before sticking the smart button, clean the dust on the surface first. Do not stick the smart button on limewashed walls.

# Operations on the EZVIZ App

1 The app interface may be different due to version update, and the interface of the app you installed on your phone shall prevail.

## 1. Homepage
