Gigabit Speed

Optimized for Smart Security Cameras

Priority red port.

The W6-SD05G Switch provides a priority red port for latency-sensitive devices like security cameras, ensuring smooth media traffic so you can enjoy high-quality live streaming.

All gigabit Ethernet ports.

Five gigabit Ethernet ports offer 10-times higher speeds over traditional 100 Mbps ports. This way, the W6 Switch allows you to build a stable and robust network in a variety of environments: homes, large apartment buildings, small offices, and much more.

A switch that goes the distance.

Switch between the regular mode and the ultra-long-distance mode to suit any need.

*When long-distance mode is enabled, the internet speed will decrease to 10 Mbps. Actual transmission distance is subject to the quality of the cable and the RJ45 connector.

Regular mode

100 m (328 ft.)

Long-distance mode*

250 m (820 ft.)

Easy to use.

Expand your network capacity instantly and effortlessly with the W6 Switch. It's a plug and play solution to connect your network devices.
