EZVIZ™

EZVIZ DL10

Smart Fingerprint Lock

Unlock Right at Your Grip

The DL10 simplifies daily access with enhanced security. Its handle-integrated fingerprint recognition unlocks when you grasp it, no extra steps needed. Paired with compatible EZVIZ cameras, it alerts you to door and access events. Reinforced carbon-steel build, high-strength polymer panel and smart alerts for tampering or repeated failed access attempts deliver reliable daily protection. Sleekly designed, this smart connected lock combines convenience and security.

Key Features

- Fingerprint Unlock
- Passcode Unlock
- Proximity Card Unlock
- Temporary Passcode
- Remote App Unlock & Control
- Links with EZVIZ Cameras
- Child Safety Lock
- Anti-Tamper Alarm
- Failed Attempt Alarm
- Anti-Peeping Codes
- Built-In Doorbell
- Low Battery Alert
- Emergency Type-C Charging

Fingerprint Unlock

Unlock with a Natural Grasp

The DL10 features built in fingerprint recognition in its handle. Your fingerprint is detected as you grasp it, combining authentication and unlocking into one seamless motion for quick, hassle free door access.

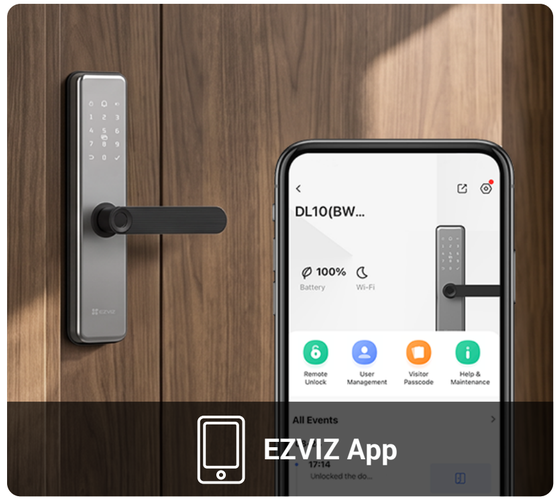

Multiple Unlocking Options

Unlock as You Prefer, For Ones You Trust

Your household can be busy with comes and goes, and you may not always be there to welcome the ones you trust. Choose what's convenient for your family and visitors, while keeping your front door under your watch.

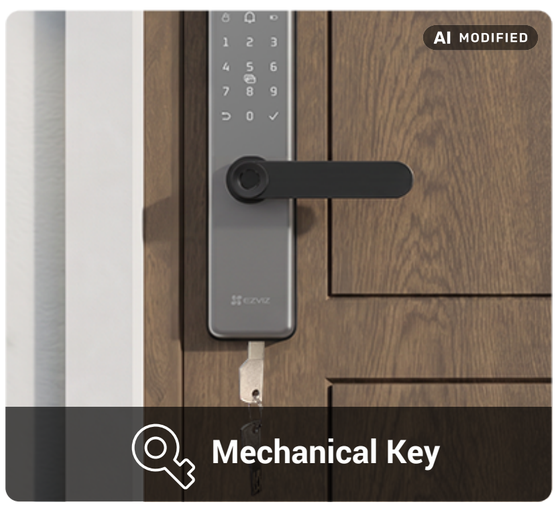

Flexible Access for Every-day & Occasional Visitors

DL10 offers tailored unlocking options: assign fingerprints, proximity cards or passcodes for regular visitors, and use temporary passcodes or App remote unlock for short-term guests, service staff and deliveries, enabling convenient access for trusted people with full visibility over home entries.

For regular visitors

Fingerprints | Proximity Card | Passcodes

Visiting Relatives

Close Friends

Long-Term Nannies

Pet Walkers

For services & deliveries

Temporary Passcodes | App Remote Unlock

Airbnb Guests or Short-Term Renters

Scheduled Housekeepers

Service Technicians

Package or Grocery Delivery

Remote Control via EZVIZ App

Stay Connected, Stay in Control

Manage your DL10 remotely via the EZVIZ App. Add or remove users, grant and revoke access permissions, and generate temporary passcodes for family members, guests, or service providers—no physical key hand off required. Keep full oversight of home entry activity right from your smartphone.

Wi-Fi Connectivity

User Management

Remote Unlock

Temporary Passcode

Co-works with EZVIZ Cameras[1]

See Who's at Your Door Before You Unlock

Link compatible EZVIZ cameras under the same EZVIZ account. View real time doorstep footage directly from the DL10 device page in the EZVIZ App. Confirm who is visiting before granting entry to your home.

Automatic Recording with EZVIZ Cameras[1]

More Context for Every Unlock

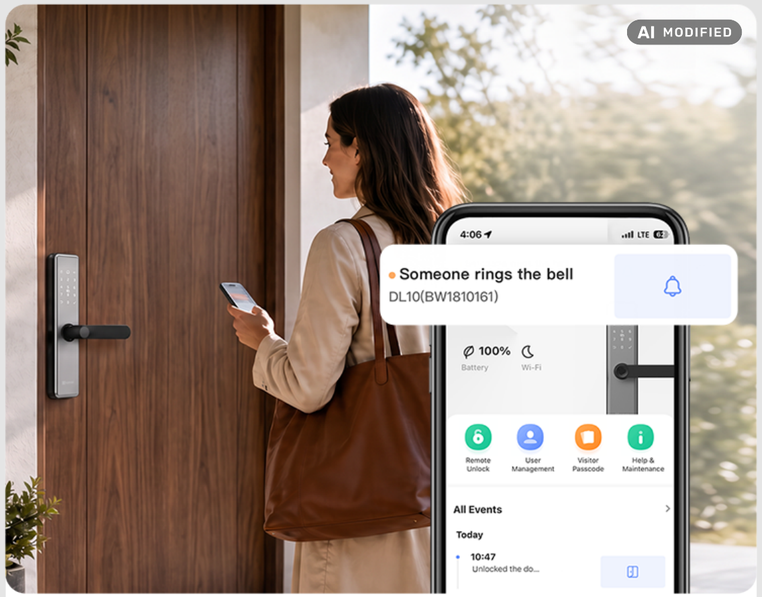

Link the DL10 with a compatible EZVIZ indoor pan-and-tilt camera. When the door is unlocked, the camera automatically records a video clip, allowing you to review entry activity in the EZVIZ App.

EZVIZ HomePlay OS

One Lock, Different Moments

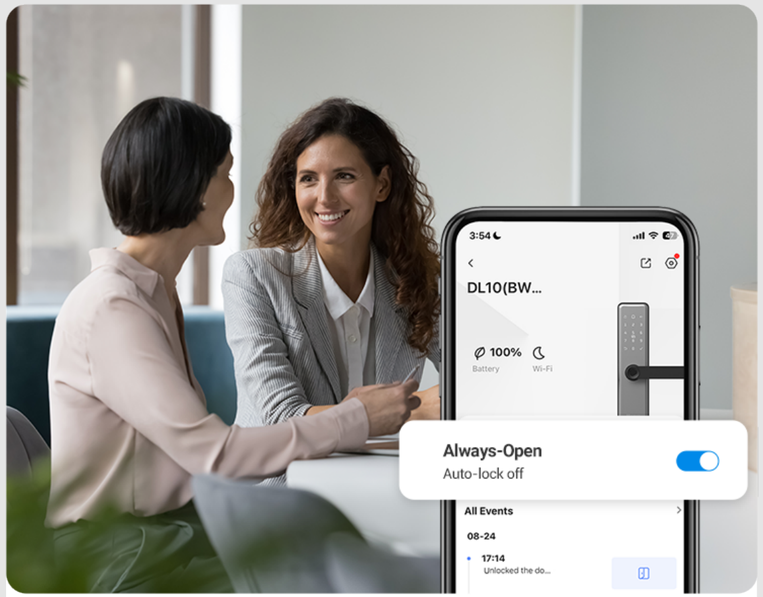

Choose the Mode That Fits the Moment

Enable Always Open Mode for convenient access during busy hours. When you need greater privacy, Privacy Mode mutes keypad tones and allows only the administrator passcode to unlock the door. A built in doorbell alerts you when a visitor presses the button.

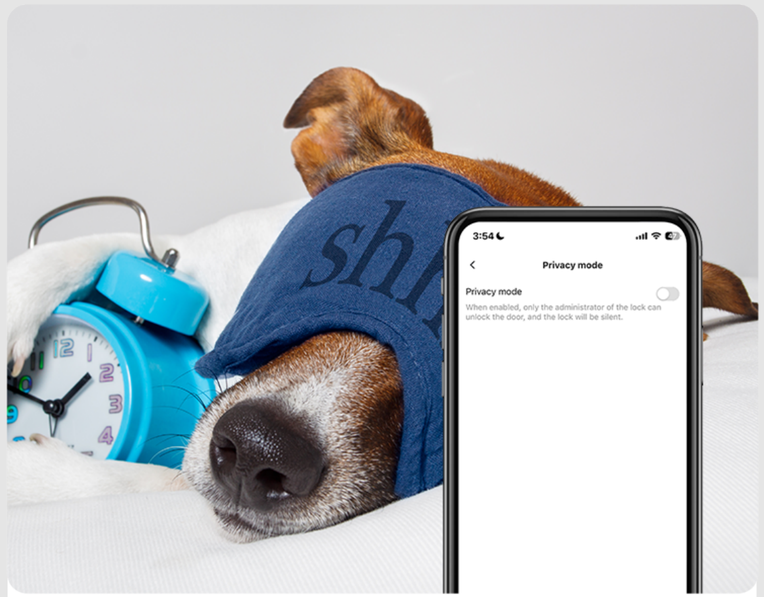

Built-In Doorbell

Get Instant Notifications When Visitors Arrive

Always Open Mode

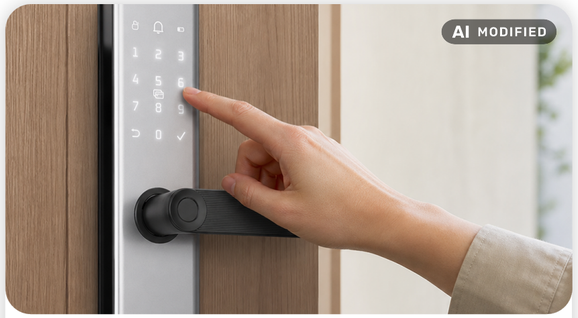

Ideal for Busy Household Hours

Privacy Mode

Ideal for a Quiet Night In

Security You Can Trust in Every Part

Anti Peeping Code

Add random digits around your passcode to keep it hidden from prying eyes.

Failed Attempt Alarm

Repeated incorrect attempts trigger a security alert.

Extreme Temperature & Humidity Resistance

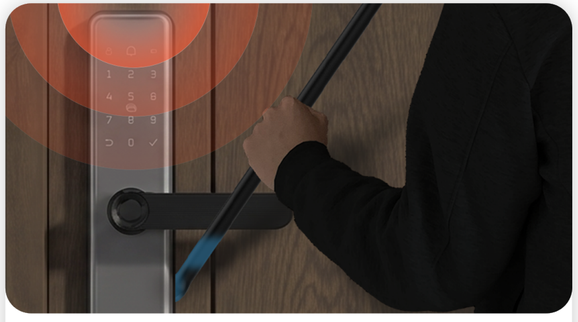

Tested for-25°C~70°C wide temperature, salt spray, ESD and 100,000 cycle durability.

Local Bio Data Processing & Storage

Fingerprint data is processed and stored locally on the device.

Anti-Tamper Alarm

Forced prying triggers an audible alarm to deter intruders.

C Level High Security Lock Cylinder

Helps resist forced and technical entry.

Child Safety Lock

A dedicated control on the indoor panel helps prevent accidental unlocking from inside.

Replaceable Battery

Reliable Power for a Busy Household

The DL10 is powered by four easily replaceable AA batteries. You will receive low power alerts when battery level runs low. Should you get locked out, the built in Type C port supports emergency power supply to keep the lock functional.

Type C Emergency Power Supply

Low-Battery Alert

1 The DL10 works with select EZVIZ cameras (H6c, C6N, CP1, TY1, TY2). Once a sensor event is triggered, paired cameras can capture snapshots or clips at pre-set viewing positions. Additional camera models will be supported with future product releases. Check the EZVIZ App device page for full compatibility details.
